Acknowledgment
At the very outset, I am indeed very happy to record my sincere gratitude to my guide & supervisor **Dr. K. Panneer Selvam**, Assistant Professor and Head, Research Department of Microbiology, M.R. Government Arts College, Mannargudi, Tiruvarur District for his continuous support throughout the study with his exemplary guidance, vision, encouragement and critical advice along with a great freedom to discuss and pursue the work more confidently. His exemplary guidance and regular supervision are the reasons behind the successful completion the thesis.

I am extremely indebted to **Dr. Raman Rao**, Vice President, Programs Development at Takeda Vaccines, Singapore for having permitted me to pursue my Ph.D. programme at Shantha Biotechnics, Hyderabad. I sincerely thank Shantha Biotechnics management for providing me with the required facilities and time to carry out the work successfully.

I take this opportunity to sincerely acknowledge the valuable directions rendered by **Dr. G. Ganesan**, Director, Research and Development Centre, Bharathiar University, Coimbatore.

I specially thank my Doctoral Committee Members for their important suggestions and impeccable comments that made the dissertation to shine.

I express my sincere thanks to **Mr. S.K. Jana**, Serum Insitute of India and to **Dr. Hersh Mehta**, Merck Biologics and Vaccines, my early career mentors, for enabling me to imbibe some of their scientific knowledge and technical skill and for helping me in sharpening my technical abilities that have stood me in good stead during the work.

My heartfelt thanks are due to **Mr. D. Vijayarangam**, **Dr. G. Lakshmikanth**, **Dr. K.S. Jaganathan**, **Mr. Parag Nagarkar**, **Dr. S.R. Chakrabarti**, **Dr. Dev Chandran**, **Mr. Mayang Kumar Garg** and **Dr. Naveen Nagaraj** from Shantha Biotechnics, Hyderabad for their constant suggestions, encouragement and help during the work. I also thank all other colleagues at the company and all my well-wishers who helped me in one way or the other in the completion of this work.

**Dr. Rajan Sriraman** and **Dr Rajendar Burki** of Biological E limited, Hyderabad for offering me sincere help whenever I approached with a problem.

I warmly thank **Dr. C.S. Shobana**, Associate Professor, Department of Microbiology, P.S.G College of Arts & Science, Coimbatore who helped me at the time of registration. Her critical scrutinization further enriched my dissertation. I pay my sincere respect and my heartiest thanks to **Dr. R. Rajendran**, Principal, P.S.G. College of Arts & Science for his valued concern over my research work.
My special thanks to Dr. P. Manikandan, Head, Department of Microbiology and Molecular Biology, Aravind Eye Hospital & Postgraduate Institute of Ophthalmology, Coimbatore (as well as Guest faculty, Department of Medical Laboratory Technology, College of Applied Medical Sciences, Majmaah University, Al-Majmaah, Kingdom of Saudi Arabia) for permitting me to collect bacterial and fungal isolates from the laboratory.

I also record my special thanks to Mr. G. Nambirajan, UGC MRP - Project Fellow, Research Department of Microbiology, M.R. Government Arts College, Mannargudi for his assistance and support during my study. Also, the timely help rendered by Ms. S. Jagadeeswari, Assistant Professor, P.G. Dept of Microbiology, D.G.Vaishnav College, Chennai - 600106 is gratefully acknowledged.

I thankfully acknowledge my parents for pushing me constantly to go for this career goal and for their constant prayer, moral support and encouragement. My hearty thanks are due to my wife Mrs. A. Shanthi, for her understanding in all fronts of family & work, support and encouragement in fulfilling my commitments towards my work and achieving my dreams, including this one. I also thank my daughter A. Akshithaa, for transferring some of her cheerfulness to me thus keeping me in good spirits and supporting her mother in her endeavours to help me. I would like to take this special opportunity to thank my father in law Mr. G. Arumugham, who stood behind me throughout the duration of the study and was instrumental by rendering his physical and mental support during my visits to the University.

Above all, I thank the Almighty for providing me with an opportunity and all means to pursue and complete the programme effectively.

B. Annamalai
