Acknowledgments

We must not forget that when radium was discovered no one knew that it would prove useful in hospitals. The work was one of pure science. And this is a proof that scientific work must not be considered from the point of view of the direct usefulness of it. It must be done for itself, for the beauty of science, and then there is always the chance that a scientific discovery may become like the radium a benefit for humanity.

This thesis would not have been completed without the encouragement and co-operation of my teachers, parents, friends, well-wishers and relatives. I take this opportunity to express my deep gratitude to one and all.

Let me take this opportunity to express my genuine gratitude from bottom of heart to my research supervisor Dr. Srinivas Hotha who introduced me into this fascinating realm of sweet (carbohydrate) chemistry and freedom throughout my research. I am very much grateful to him for his valuable guidance, suggestion how to improve presentation skills and everlasting encouragement throughout my course. I am certain that the ethics and moral values which I learnt from him will go a long way in making me a better human being.

I wholeheartedly extend my sincere thanks to active collaborator in CSIR-NCL Dr. Sayam Sen Gupta introducing me to fascinating field of Glycopolymer Chemistry, suggestion, discussion and to improve independent thinking of application of research work before starting project. I would like to thanks all group members of Dr. Sayam Sen Gupta for their support & help and especially to Debasis Pati for guiding me to ho to do NCA-polymerization reactions.

I thank our Head, Division of Organic Chemistry, Head, Chemical Engineering & Process Development and Director CSIR-NCL for providing infrastructure facilities. I sincerely acknowledge CSIR, New Delhi for the award of research fellowship. I wish to deep sense of gratitude to my M.Sc. project guide Dr. S.P. Chavan & Dr. U. R. Kalkote for their valuable guidance, encouragement, stimulating discussion and gain initial knowledge of peptide coupling, organic synthesis & purification techniques during the course of my project. I thank Mahesh Sonar, Dhanajay, Preeti, Sharad, Sachin & Sayali for their kind cooperation and guidance during the course of the M.Sc project and treating me as friend. I also want to give my sincere thank to Dr. A.R. A. S. Deshmukh and Dr. V.K. Gumaste for their support & encouragement during my project assistance stay in CSIR-NCL and for introduction to β-lactam chemistry.

I also thank all DOC students, staff members for their timely help throughout. The work would not have been complete without the help provided by the analytical groups like NMR, IR, microanalysis, mass spectroscopy and HRMS. I sincerely thank Dr. P. R. Rajmohanan for smooth running of NMR facility which is primary source of getting information about what we have synthesized without one cannot
I am thankful to my mentors from School and College for their inspirational teaching, ethics and discipline. I sincerely thank Dr. Md. Qurdratullah (late), Dr. G. M. Nazeruddin, Dr. (Mrs.) S. T. Mulla, Prof. M. Rafique Sarkhawas, Prof. Alamgir Shaikh, Prof. Iqbal, Prof. Harun, Prof. Iliyas, Prof. H. Sonawane & other staff from chemistry department, Poona College (Affiliated to University of Pune) Camp, Pune for their encouragement. I would like give my special thanks to Prof. M. S. Wadia for teaching us organic chemistry and I have never seen very enthusiastic and passionate teacher in my life. I am also thankful to my lecturers and professors from Tuljaram Chaturchand College, Baramati (M.S. Affiliated to University of Pune). I would like also thanks especially to Prof. S. Salunke, Prof. S. Kale, Prof. K. Dhamal, Prof. B. Torne & Prof. H. M. Wadde (HOD) for inspiration and teaching organic chemistry. I would like thanks Prof. M. Godse for teaching ‘Unity and Discipline’ & friends during my stay in National Cadet Corps (NCC)

It is hard to find a lab better well-knit as a unit than the one I was blessed with an opportunity to work in. I had wonderful seniors in Sudhir, Ashish, G. Suresh Kumar and Srinivas Rao (srini) who, apart from tuning my skills, made me feel at home right from day one in the lab. The co-operation and support extended by Abhijeet, Shivaji (Maharaj), Venkateshwara Rao, Maidul Islam, Abhik and Bijoyand have been exemplary, to say the least, and I cherished their company throughout.

I was lucky to have some really nice seniors in all of NCL during my stay here, Aarif, Meazauddin, Noor, Shabab, Shadab, Ansari, Asad, Imran, Mujahid (Mujju Kha), Ruby, Rehman & Rita, Kishor, Pinnak, Prakash, Vaijyanti, Prasanna, Nishant, Rama, Malli, Pushpesh, Abhijit, Ravi, Manmath, Deepak, Ganes, Gauri, Amol, Arup, Ramesh, Mahesh, Abasaheb, Kishor Harale, Lalit, Rahul, Sujit, Swaroop, Kannan, Somesh, Rishi to name just a few. I am also thankful to my friends Ankush, Sangram, Tukaram, Roshana, Kheria, Vijay, Nilesh, Sumanta, Prakash, Pradeep, Sutar, Anand, Krishanu, Pankaj & Jyoti, Laka, Krunal, Indra, Anuj, Ajay, Rupesh, Dipesh, Roshan, Saikat, Nilofar, Pankaj, Swati, Kiran, Bhausaheb & all my other colleagues for their cheerful support, co-operation and making my stay at NCL very comfortable and memorable one.

My stay here was made livelier by GJ hostel, a hostel unique in ways more than one. It provided the perfect atmosphere to spend leisure time and I thoroughly enjoyed the gardening in hostel & planted tree to make green environment, which will help to compensate pollution created during my Ph.D. work. It was a
pleasure to share room with Pitamber and Kundan. I owe a big “thanks” to all my friends who made GJH such a wonderful place to stay in.

Friends make things go easy and life beautiful. Indeed, I am blessed to have friends like Abhijeet, Ankush, Mandeep (3idiot), Varun (3idiot), Brij, Saikat and Krunal. Mandeep is a very special kind of person who will never listen anyone and wherever he goes makes atmosphere cheerful & enjoyable like ‘sardar’ always do. Also, I would supporting Varun to me while debating with Mandeep. When it comes to Brij, Saikat and Ankush I am lost for words to describe them as individuals and it should suffice to say that I am simply blessed to have them ever by my side; I’ve spent the best of times with them around, especially Abhijeet, I always loved his deep general knowledge and explanation.

I am thankful to my graduation and post-graduation friends Javed, Vijay, Kiran, Rifahat, Lalamuhammd, Abrar, Aftab, Sikandar, Nusurat, Rumana, Gazala, Quwser, Asiya, Nitin, Vikrant, Navanath, Yogendra, Virkam, Rishi and others for their support and co-operation.

I would like to express my deep and invaluable thanks to Nikhat for her inspiration, constructive criticism and support from post-graduation until now; hope will continue in my entire life. I would like especially thanks to my school friend Kumar, Trishala and graduation Sujit, Javed, Mushtaq, Imtiyaz and Bilal for their constant encouragement and moral support.

I am grateful to the employees of Golden Jublee Hostel (GJS) for providing good meals especially to head cook Chakru who can make any dish in the world.

No word would suffice to express my gratitude and love to my mother, father and sister for their continuous showering of boundless affection on me and supporting me in whatever I choose or did. It is my late grandfather’s, late grandmother’s, constant struggle and relentless hard work to overcome the odds of life, which has inspired me to pursue life with a greater optimism. The warmth and moral value of my parents have stood me in good stead throughout my life and I would always look up to them for strength no matter what I have to go through. This Ph. D. thesis is a result of the extraordinary will, efforts and sacrifices of my family. I would like to dedicate this moment of joy to my family. My success is dedicated to them now and always.

I wish to express my gratitude towards “Allaha-almighty”, who gave me the strength and courage to fulfill my dreams and has showered upon me his choicest blessings.

.....Ashif
