Acknowledgement

My endeavour in the research work for the degree of Doctor of Philosophy would remain incomplete without expressing gratitude to all those who helped, encouraged, supported and guided me in this venture.

First of all, I express my deep gratitude to my respected Teacher and Guide Dr. Nikhil Bhusan Dey, Reader and Head, Department of Commerce, Assam University, for his priceless guidance, tireless efforts, constant encouragement and constructive criticism during the entire tenure of my (Ph.D.) Research. It gives me great pride and joy for having been associated with him over the past years.

My deep sense of gratitude is to my Teacher Prof. Apurbananda Mazumdar, Dean, School of Management Studies, Assam University, for his invaluable and timely suggestions and advices.

I also wish to acknowledge the Small Business owner-managers of North-Eastern Region, who went out of their way in giving detail responses to my probing questions and participated wholeheartedly in interactive sessions. Their perspectives and opinions provided me with rich background in shaping my ideas on various pertinent issues - on financial management of small business.

I particularly wish to thank those enumerators who out of pure altruism and a desire to ensure accuracy in collecting field data have spared their valuable time in filling up the Questionnaire relevant to the research work in their respective places.

In putting together this research work, I pay my thanks to many individuals, institutions and organisations. At the early days of research study, I received valuable support from Mrs. A. M. Na'ak, University of Birmingham, U.K., Dept. of Accounting and Finance; the Principal Director, NISIET, Hyderabad; Mr. Hiranmoy Roy, Research Scholar; IIE, Guwahati; SIDBI Officials, Guwahati; NEDFi officials, Guwahati; SISI Silchar Branch; Central Library, Assam University, Silchar; Gokhle Institute of Economics & Politics, Pune; NIBM, Guwahati. Financial assistance from North-Eastern Council (NEC), Shillong, during my research study is gratefully acknowledged. I would like to mention the invaluable support of Shri Dibyojyoti Bhattacharjee, Department of Statistics, G.C. College, Silchar for his help in data analysis.

I am deeply indebted to my parents and younger brother & sister, friends, colleagues and wellwishers for their spontaneous support and motivation all along the research work and that shall always be remembered.

Finally, I would like to express my thank to Abhijit Roy for his patient typing and retyping of the text, with extra personal care and interest.

Place : Silchar
Date : 11th December, 2004
