ACKNOWLEDGEMENTS

I utilize the privilege of this opportunity to express my deep sense of heartfelt gratitude and regards to my respected supervisor, Prof. D. C. Ray, Dept. of Ecology and Environmental Science, Assam University, Silchar. He introduced me the cryptic field of insect pest and giving me the great opportunity to realize my Ph.D thesis. He is gratefully acknowledged for his constant guidance, invaluable advice and encouragement in each and every step of my work and enable me to complete the study.

I am thankful to the Head, Department of Ecology and Environmental Science, Assam University, Silchar for providing laboratory facilities during the course of my study.

I also greatly acknowledge and heartful thanks to Late Dr. Ranabijoy Gope for his invaluable help.

I extend my profound gratitude to Prof. Abhik Gupta, Dean, School of Environmental Science and Prof. Ashes Kumar Das, Dept of Ecology and Env. Sc. Assam University, Silchar, for their valuable suggestions.

Thanks are also due to Dr. D. Bhattacharjee, Asst. Professor, Dept. of Life Science for identifying the plant species.

I am thankful to Dr. K.I. Singh, Divission of Entomology, CAU, Imphal, for providing pure stock of microbial agents.

My sincere acknowledgements are also due to all the faculty members of the department for their encouragement, all the non-teaching staffs for their co-operation and to all the research scholars of the Pest Management and Ecotoxicology Laboratory for their extended help and support in field and laboratory works.

I am thankful to Tea Research Station, Silcoorie for providing meteorological data.

Thanks are also due to the farmers those who provided field facilities and the cultivators those who shared their views regarding the practices of traditional pest management.

Finally, I would like to express my sincere thanks to my parents (Mr. Prasanna Das & Mrs. Narmada Das) and family members, who helped me and encouraged constantly for the completion of my work.

Manika Das
