ACKNOWLEDGEMENT

At the very outset I express my special indebtedness to Dr Susmita Gupta, Assistant Professor in Ecology and Environmental Science, Assam University for her constant supervision, guidance and valuable suggestions at all stages of my Ph.D. work.

I extend my sincere gratitude to Prof. N. Rajmuhon Singh, Chemistry Department, Manipur University, Manipur for his co-supervision, guidance and valuable advice.

I am grateful to L. Joykumar Singh, Deputy Conservator of Forests, Wildlife, Park and Sanctuary, Government of Manipur for granting permission to visit Keibul Lamjao National Park.

I express my gratitude to Prof. Abhik Gupta, Dean, E.P. Odum School of Environmental Sciences and Prof. Jayashree Rout, Head of the Department of Ecology and Environmental Science, for providing laboratory facilities. I am thankful to all the teaching and non-teaching members of the faculty for their support and suggestions during the work.

I offer my sincere thanks to Dr. T. Brajakumar Singh, Scientific Officer, and Dr. N. Sanamacha Meitei, Analyst, Environment Research and Development Laboratory, Environment and Ecology Office, Government of Manipur, for providing necessary help and co-operations during analytical works.

I am grateful to experts of Zoological Survey of India, Calcutta for identifying insects specimens.

I am thankful to my friends Dr. Bibhas Rajkumar, A. Satishchandra Sharma, S. Manoranjan Singh and Kh. Romesh Singh for helping me in various ways.

Also, I do express my profound sense of gratitude, reverence and indebtedness to my beloved parents, brothers and my Uncle Arun and Imocha for their painstaking endeavor blessings along with moral and financial support which always provided me the source of inspirations and valuable guidance to carry out this task to success.

Kiranbala Takhelmayum.
