ACKNOWLEDGMENTS

I completed my doctoral study during my time spent in the doctoral program at University of Pune, in the Department of Commerce and Research Center. Many people contributed substantively to this study. They include my family who supported my efforts requiring frequent and sustained absence from them. Professor Bairagi Kachardas Pitamer has served for years a mentor and role model, as well as serving as formal supervisor. He guided me all the way from the questionnaire design stage to the actual writing of this dissertation. I am grateful to him for also taking time off his ever busy schedules to review the first drafts. I would like to thank him for his clear suggestions and patience.

I would like to express my personal gratitude to Dr. Sangale Babasaheb, Dr. Sanjay S. Kaptan, Dr. Sudhakar Jadhawar and Dr. S. V. Kadvekar, who constantly gave their support and encouraged me with their ever positive and constructive feedback and guidance throughout the doctoral process. Without their expertise and knowledge, the output of this research would not have reached the standards it did.

I commend with gratitude the assistance given to me by the following people: Milind Shintre and his family, Seyed Mohammad Sadeq Khaksar and Khaled Nawaser.

I would additionally like to thank my Brothers, Sisters, Parent’s, Father and Mother in law for their persistent support in my quest to complete my doctoral studies.
