1. CHAPTER-I (General Introduction) 1-52
   1.1 An Introduction to Assam 4-7
   1.2 The Char Area of Assam 7-31
   1.3 A Special Note on Dhubri District – The Study Area 31-41
   1.4 Identification of the Problem 41-49
   1.5 Objectives of the Study 49
   1.6 Hypotheses 49
   1.7 Significance of the Study 50-51
   1.8 Thesis Chapters 51-52

2. CHAPTER-II (Review of Literature) 53-107
   2.1 Production and Productivity Concept 53-54
   2.2 Important Factors Responsible for Low Production and Variation in Productivity 54-62
      2.2 (a) Irrigation 55-57
      2.2 (b) Chemical Fertilizers 57-58
      2.2 (c) Technology and HYV Seeds: 58-59
      2.2 (d) Education and Agricultural Productivity: 59-60
2.2 (e) Farm Size and Agricultural Productivity: 60-62

2.3 Studies on Productivity Analysis: 62-71

2.4 Studies on Technical Efficiency Analysis: 72-107

3. CHAPTER-III (Conceptual Framework of the Study, Design of the Study and Methodology) 108-133

3.1 Technical Efficiency Approaches: 108-116

3.1 (a) The Statistical or Stochastic Frontier Production Function Approach (SFA) 111-116

3.2 Some Model Specification 117-122

3.3 Efficiency Predictions 122-123

3.4 Translog production frontier using cross-sectional data and assuming a truncated normal distribution 123

3.5 The Specified Model 124-125

3.6 Methodology of the Present Study 125-133

3.6.1 Data Base and Collection of Primary Data 125-126

3.6.2 The Production- Efficiency Models and the Hypothesized Relationship of the Selected Variables on the Basis of Review 127-133

3.6.2. (a) Cobb-Douglas Production Function Model 127-131

3.6.2. (b) The Determinants of Technical Efficiency Model 131-133
4. CHAPTER-IV (Data Analysis and Results)

Part- A

4.1 Presentation and Analysis of Data

Part- B

4.2 Summery statistics of the sample house hold

4.3 The Result of C-D Production Function Model

4.3.1 Role of different agricultural inputs in determining agricultural productivity of rice

4.3.2 Maximum likelihood estimates of stochastic frontier production function in rice production in char areas of Assam

4.4 Technical efficiency levels of rice farmers (%) in Char Chapari areas

4.5 Role of Household Background Characteristics in Defining Technical Efficiency

4.6 Hypotheses

5. CHAPTER-V (General Discussion, Conclusion and Recommendation)

5.1 Summary of the Results and Discussion

5.1.1 Presentation and analysis of data collected for the present study

5.1.2 Summery statistics of the sample house hold

5.1.3 The Result of C-D Production Function Model

5.1.4 Maximum likelihood estimates of stochastic frontier production function in rice production in char areas of Assam

5.1.5 Technical efficiency levels of rice farmers (%) in Char Chapari areas
5.1.6 Role of Household Background Characteristics in Defining Technical Efficiency 195-197

5.1.7 Results of Hypotheses Test 198

5.1.8 Summary of the main findings 198-199

5.2 Conclusion and Recommendations 199-201
