ACKNOWLEDGEMENTS

I have a great pleasure in recording my deep sense of gratitude to Dr. R.N. Desai, with whose guidance and supervision, it was possible for me to carry out and complete this work. During the course of this work, I have received constant encouragement and valuable advice from my teachers Prof. Dr. V.B. Nadkarni, Prin. R.S. Salimath (Retd), Prof. Dr. S. Basalingappa, Dr. B.Y.M. Gouder (Retd) Dr. M.A. Hooli, Dr. (Mrs) B.A. Shanbhag and Dr. K.M. Pathan.

The electrophoretic studies forming a part of this thesis would not have been easy but for the guidance by Dr. B.M. Swamy, Lecturer in Biochemistry, Karnataka University, Dharwad. Prof. Dr. P. Govindrajulu, Head of Endocrinology Department, Dr. A.L.M. P.G. Institute of Basic Medical Sciences, Taramani, Madras, readily extended the facilities to scan the gels. Further Prof. Dr. V.B. Nadkarni kindly spared for me some fine chemicals which he received from the W.H.O., Geneva. I deem it as my sincere duty to record my sense of gratitude to all these persons.

During the course of this work my research colleagues Shri. S.V. Bellary, Dr. Masood Parvez, and Shri. B. Manivannan and my friend Shri. P.N. Yeri and others have helped me in various ways. I am also thankful to all of them.
The laboratory facility provided by, The Principal, Karnataka Science College, Dharwad, and The Chairman, Department of Studies in Zoology, Karnataka University, Dharwad, is gratefully acknowledged.

Finally, the financial assistance under the UGC Financial Assistance to Teacher's Scheme, for Minor Research Project, No. F.25-7(13174)/83-(SR-1) to me and F.25-(12535)/83-(SR-1) to my guide Dr. R.N. Desai, from the University Grants Commission, New Delhi, is also gratefully acknowledged.

ASHOK A. HOOJI.
