ACKNOWLEDGEMENTS

The investigator earnestly feels that this is the rare and the right opportunity to express his deep sense of gratitude and thanks to all those individuals and institutions that extended him required timely cooperation, assistance and guidance in the successful completion of the present study.

His sincere thanks are due to the Principals of all the Colleges of Education involved in the study for having permitted and provided necessary assistance to administer the tests to the student-teachers of their colleges. The student-teachers in turn richly deserve the appreciation and thanks for having taken the tests with sincerity, honesty and enthusiasm.

He is equally indebted to educationists, teacher-educators, Principals/Headmasters of high/higher secondary schools for having responded in time to his request to point out the possible factors of success in teacher education course.

He is highly thankful to the authorities of the Computer Unit of the Karnatak University, Dharwad,
for having helped in the statistical analysis of the data; and also to the Controller of Examinations of the Karnataka University, Dharwad, for having permitted to secure the final marks of the B.Ed. examination from his office.

His thanks are also due to the University Grants Commission, New Delhi, for having given necessary financial assistance to conduct the study.

His indelible indebtedness and deep sense of gratitude are due to Dr. G. M. Patted, Reader, Department of Studies in Education, Karnataka University, Dharwad, for availing continuous, sustained and inspiring guidance throughout the endeavour.

Dharwad
