ACKNOWLEDGEMENTS

I wish to express my indebtedness to my mentor and guide Dr S G Bharati, M Sc, Ph D, F B S, Prof and Head (Rtd) Department of Botany, Karnataka University, Dharwad, for his overall supervision, valuable suggestions and timely help during the preparation of this thesis. I must record my gratefulness for his keen interest and affectionate guidance throughout the course of my work which have enhanced the quality of the thesis.

I am thankful to Dr K Nataraj, Professor and Chairman, Department of Botany, Karnataka University, Dharwad and Dr M S Channaveeraiah, Dr M G Panchaksharappa and Late Dr S M Jorapur, Professors and former Heads of the Department of Botany, Karnataka University, Dharwad for their encouragement and facilities afforded in the Department.

I am extremely grateful to Dr Shankar P Hosamanı, Post-Graduate Department of Botany, University of Mysore, Manasagangotri, Mysore for his valuable suggestions and inspiration during the preparation of the thesis, to Shri Bheema Rao, Soil Chemist and Shri T K Shivaraman Assistant Soil Chemist of soil testing Laboratory, Coffee Board, Research Department, Mysore and Dr V C Chavadi, Director, Academic Staff College at Karnataka University, Dharwad for necessary facilities provided during chemical analysis using AAS.

I also wish to express my gratefulness to the Geology Department, University of Mysore, Manasagangotri, Mysore for their help in the analysis of certain elements (AAS).
I also wish to express my appreciation to Indian Agricultural Research Institute Delhi and Madras University, Madras for extending library facilities. I am also thankful to the authorities of the Meteorological Office, Bangalore for providing the rainfall data of different places of collection.

I express my sincere thanks to Dr. S. L. Kadam, Miss Uma V, Dr. S. B. Angadi, Dr. G. N. Nayak and Dr. R. K. Mulgund, Shri S. F. Doddgoudar and Dr. B. Yashoverma (J.S.S. College staff), to Dr. G. R. Hegde, Dr. U. D. Bongale and to the staff members and my friends in this Department and elsewhere for their help in the preparation of this thesis.

Financial assistance by the University Grants Commission, New Delhi, during the tenure of this investigation is gratefully acknowledged. I am also thankful to Shri S. S. Hiremath for typing, Shri K. P. Tuke for cartographic work and to Shivanand for assistance.

I am greatly indebted to my beloved parents, and sisters, whose sacrifice, love and affection, have made this work a success.

Department of Botany, Karnatak University, DHARWAD-580 003 (India)

December, 10 1987.
