ACKNOWLEDGMENT

At the outset, let me express my deep sense of gratitude to Dr. K. Balaraman, Deputy Director, Vector Control Research Centre, Pondicherry for his able guidance, valuable suggestions and critical review of this manuscript.

To Dr. Vijai Dhanda, the Director of Vector Control Research Centre, Pondicherry, I express my heartfelt thanks for providing me an opportunity and the necessary facilities to work in this centre.

My sincere thanks are due to Dr. S. Bhaskaran, Reader, Department of Biochemistry, Perundurai Medical College, Perundurai for his help in performing mutagenicity and carcinogenicity assays.

I would like to record my deep sense of gratitude to late Dr. S.G. Suguna for rendering help in the identification of chromosomal aberrations.

Dr. A. Sundararaj, Head, Department of Histopathology, Tamil Nadu Veterinary and Animal Sciences University, Madras needs mentioning here for helping in the analysis of histopathological sections.

My thanks are due to Dr. M. Kalyanasundaram, Dr. S.L. Hoti, Dr. A. Manonmani and Dr. A. R. Rajavel for their help and suggestions during the course of the work.

I am grateful to Dr. K. P. Paily for his critical comments and help throughout the study period.

The help of Mr. A. Manoharan in the statistical analysis of the data is gratefully acknowledged.

I thank Mr. V. Ramu, Mr. G. Prabhakaran, Mr. S. B. Chakkaravartly, Mrs. M. K. Vijayalakshmi, Mrs. Sandhya C. Nair, Mrs. T. Sumathi and Miss. K. Gomathi for their help during the course of the work.

I am indebted to Mr. G. Sakthivel for his technical assistance in the completion of this work.

Last but not the least, I thank all the staff of VCRC for their kind co-operation during the study period.

S. Sudha Rani
