ACKNOWLEDGEMENT

Completing the Ph. D. work is probably the most joyful days of one’s life. The best and worst moments of my doctoral journey have been shared with many people. I express my sincere indebtedness to my supervising teachers, Dr Mathew M Oommen, Professor (Rtd), Department of Zoology, University of Kerala and Dr T S Nayar, Head (Rtd), Division of Conservation Biology, Jawaharlal Nehru Tropical Botanic Garden and Research Institute (JNTBGRI) for incessant guidance, valuable discussions, constructive criticism and unfailing encouragement given, throughout the period of this work.

My sincere thanks to the present and former Directors, JNTBGRI, Palode, Thiruvananthapuram for providing all facilities for the successful completion of my Ph. D. programme.

I sincerely thank Ministry of Environment and Forests (MOEF), Government of India for financial assistance provided for my research work.

I am equally thankful to the all members of Division of Conservation Biology, JNTBGRI, and the teachers and the research colleagues in the Department of Zoology, University of Kerala, for the help during the whole tenure of my research work. A word of gratitude is also due to residents around Kunhimangalam, Puthuvypu and Mangalavanam mangroves for their support during the work.

I express my deep gratitude to Dr S Ajmal Khan and Dr S Lyla of the Centre for Advance Studies in Marine Biology, Annamalai University and Dr M K Dev Roy of the Crustacean Division, Zoological Survey of India, for helping in the identification of crabs.

I am grateful to The Associate Director of Research and Dr P P Moosa, Associate professor of the Regional Agricultural Research Station, Pattambi for providing the facilities for the chemical analysis.

I record my profound gratitude to Dr K V Baiju, Department of statistics of the Government Women’s college, Thiruvananthapuram for help in the statistical analysis.

I am obliged to Dr F Dahdouh-Guebas of Vrije University, Brussels, Dr J Offenberg of Aarhus University, Denmark; Professor K. Kathiresan of Annamalai University; Khaleel, Associate Professor of Sir Sayed College, Taliparamba; Dr O K Rema Devi of Institute of Wood Science and Technology, Bangalore; former Director of Zoological Survey of India, Dr Ramakrishna and Dr J R Bhatt of MOEF, Government of India for their help in different stages of my doctoral programme.

I am grateful to my parents, brothers, sister, wife and daughter for extending unconditional support and encouragement at each turn of this work.

Many others supported me during the Ph. D. programme, to them all I record my sincere thanks.

Above all, I humbly kneel down before the God for the bountiful blessings showered up on me at each and every moment without which the study would not have been a success.

V P PRAVEEN
