Acknowledgement

It is indeed a great pleasure on my part to present this piece of work which is an outcome of constant guidance and splendid supervision of my respected supervisor Dr. Manabendra Dutta Choudhury, Professor, Department of Life Science and Bioinformatics, Assam University, Silchar. He, with his vast erudition and patient mind as a Research-Supervisor sailed me out through all obstacles, academic as well as administrative to accomplish the project successfully. All along, the help I got from him and the discussion with him motivated me to do better each time. I express my thanks to him for the lessons he taught me in the process which will always help me to go forward.

I express my sincere gratitude to my co-supervisor, Dr. Biplab De, Associate Professor, Regional Institute of Pharmaceutical Science and Technology, Agartala, for providing me all the facilities while working there. I am very much grateful to him for his constant guidance and his valuable suggestions in analyzing the spectroscopic data as well as in compilation of the thesis. I offer my sincere gratefulness to my co-supervisor, Dr. S.B.Paul, Professor, Department of Chemistry, Assam University, Silchar, for being the strong guiding force behind my Ph.D work.

I convey my gratitude to Prof. Somnath Dasgupta, Honourable Vice-Chancellor, Assam University, Silchar, who supported my endeavour whole heartedly.
I’m thankful to Prof. D. Kar, Dean of School of Life Science, Assam University, Silchar and Dr. S. Giri, HOD, Department of Life Science and Bioinformatics, for providing me with the laboratory facilities.

I do gratefully acknowledge the encouragement and advice from my esteemed teachers of the Department of Life Science, Assam University, Silchar.

I am grateful to Dr. B.B. Goswami, Principal, Regional Institute of Pharmaceutical Science and Technology, Agartala, Tripura for allowing me to do a part of my work there.

I acknowledge with thanks the help received from Mrs. S. Bhattacharjee, STA; Mrs. M. Sinha, JTA and Mr. A.Mandal, Lab Attendant during the course of my work. Also I am grateful to the official staffs of Department of Life Science and Bioinformatics for all the help I received from them time to time.

I convey my sincere thanks to Dr. Lokesh Deb, Scientist (Pharmacology), Medicinal Plants and Horticultural Resource Division, Institute of Bioresources and Sustainable Development (IBSD), Department of Biotechnology, Takyalpat, Imphal, Manipur, for allowing me to carry out a part of my work there. Thanks are due to Amitabha De and Vikash Sharma, junior researchers, IBSD, Manipur for their help and co-operation.

I am also thankful to Dr. K. Elango, Principal, JSS College of Pharmacy (JSS University, Mysore), Ooty for allowing me to carry out a part of my work there. I express my sincere thanks to Dr. M.N. Sathish Kumar, Professor of Pharmacology, JSS College of Pharmacy and Mr. Ashish Wadwani, Senior Research Fellow, CSIR, Department of Pharmaceutical
Biotechnology, JSS College of Pharmacy Ooty, for the help and co-operation I received from them.

I also owe my thankfulness to Dr. Sudip Choudhury, Assistant Professor, Department of Chemistry, Assam University for his suggestions and moral support. I am also thankful to Dr. Anupam Das Talukdar, Assistant Professor, Department of Life Science and Bioinformatics, Assam University, Silchar, Dr. Pankaj Chetia, Research Associate, Bioinformatics Centre, Department of Life Science, Assam University and Pinak Pani Nath Choudhury, Assistant Professor, S.S. College, Hailakandi for their help and support.

Thanks are also due to Dr. Arun Chattopadhyay, HOD, Department of Chemistry, IIT, Guwahati and Dr. G. Krishnamoorthy, Head of the Centre, CIF, IIT, Guwahati, Mr. Babulal Das, Scientific Officer, Department of Chemistry, IIT Guwahati and Mr. Kh. Kesho Singh, Junior Technical Superintendent, IIT, Guwahati, for providing the spectroscopic facility.

I would like to offer my thanks to Pioneer Consultancy, Agartala, B.K. Enterprise, Agartala and Mr. R. Saha, Chandra Drugs, Silchar, for supplying me chemicals and other accessories related to my work. I am also thankful to Mrs. Swarnali Nath, Research Scholar, Department of Chemistry, Assam University, Silchar, for her support during the laboratory work done at RIPSAT, Agartala.

I am thankful to my friends, Saswati Roy, Bharati Sinha, Shambi Deb and my fellow research scholar Kattyayani Dutta Choudhury and all other research scholar of my laboratory and Department of Life Science and Bioinformatics for their help, support, encouragement and best wishes.
I shall not miss this opportunity to express my thanks and heartiest gratitude to my parents Smt. Jayasree Nath and Sri Sitangshu Sekhar Nath who have always been my strength and source of inspiration and it is because of their blessings and best wishes, I am here today. I express my regards to my sisters Pinky, Tinki, my brother, Satyajit and my broter-in-law Pritam Nath for their support and encouragement all throughout my work. I shall remain grateful to my father-in-law, Sri Gobinda Chandra Sen for all those blessings he showered on me, my mother-in-law, Smt. Neelima Sen, for her immense support and co-operation, my brother-in-laws Sri Pradyut Sen, Sri Shudipta Sen and my sister-in-laws, Smt. Shutapa Sen and Smt. Tosha Sen for their support and best wishes.

I find no words to thank my husband Sri Jayanta Kumar Sen, who with his immense support, encouragement and motivational words, has been the driving force behind the completion of this work and without his help and co-operation this would not have been possible on my part. My special thanks goes to my son Master Ataishwarjya Sen, for his silent support and co-operation which helped me a lot in completing my work.

Last but not the least, I am thankful to the almighty by whose grace all have gone well so far.
