List of Tables

Table 1   Antibodies used in the study  
Table 2   Plasmids used in the study  
Table 3   Buffers and media used in the study  
Table 4   PCR methodology  
Table 5   Site-directed mutagenesis methodology  
Table 6   BP reaction mixture  
Table 7   LR reaction mixture  
Table 8   Lipofectamine plasmid-transfection methodology  
Table 9   PEI plasmid-transfection methodology  
Table 10  SiRNA transfection methodology  
Table 11  Partial list of WWP2 associated proteins  
Table 12  Partial list of Dvl2 associated proteins
