Firstly, I would like to show my deepest gratitude to my Lord, who gives me bounties to finish my study and also for all extraordinary chances in my life.

My most earnest acknowledgement must go to my major advisor Prof. (Dr.) K.R. Aneja, former Professor and Chairperson, Dept. of Microbiology for his supervision, advice and guidance from the very early stage of this research as well as giving me extraordinary experiences throughout the work. I could not have imagined having a better advisor than Prof. K.R. Aneja for my Ph.D. who enabled me to make some material contribution to the pre-existing ocean of knowledge and thoughts. His guidance helped me in all the time of research and writing of this thesis. His patience and support helped me overcome many crisis situations and finish this thesis. I hope that one day I would become as good an advisor to my students as Dr. Aneja has been to me. He has been always there to listen and give advice. I am deeply grateful to him for the long discussions that helped me sort out the technical details of my work.

My reverent and gratitude is for my Co-Supervisor Dr. Neeraj Aggarwal, Assistant Professor, whose dynamic supervision, keen interest, illustrious advice, philanthropic attitude and encouragement throughout my research work enabled me to achieve my goals. I have been amazingly fortunate to have a co-advisor who gave me the freedom to explore on my own and at the same time the guidance to recover when my steps faltered. Dr. Neeraj's insightful comments and constructive criticisms at different stages of my research were thought-provoking and they helped me focus my ideas. I am grateful to him for holding me to a high research standard and enforcing strict validations for each research result, and thus teaching me how to do research.

I would take this opportunity to extend my gratitude and sincere thanks to former Vice-Chancellor, Lt. Gen. (Dr.) D.D.S. Sandhu for provision of research facilities in the Department of Microbiology to carry out my Ph.D. work so efficiently.
Acknowledgement

I am also grateful to the present Dean, Faculty of Life Sciences, Prof. V.K. Gupta and Ex. Dean, Prof. Girish Chopra and Dean of Academic affairs for their kind interest and cooperation. I wish to extend my thanks to Prof. (Dr.) Neelam Garg, Chairperson, Department of Microbiology, Kurukshetra University, Kurukshetra, Haryana for her encouragement and support.

I want to offer my thanks to Dr. Baljeet Saharan and Mr. Vijay Kumar, faculty members in the Department of Microbiology, Kurukshetra University, Kurukshetra for their keen interest, necessary help and criticism during the completion of the study.

I offer my sincerest thanks to Director, CABI, International Mycological Institute, Egham, England for confirming the identification of the isolates and Macrogen Inc., Advancing through Genomics, Korea for helping me in molecular characterization of the isolates.

Special thanks to my friends and lab fellows and all others for their help and kind attitude, for creating such a wonderful time and cheering me up and laughing together shortened these years and made even studying for exams enjoyable. I am thankful to my seniors Dr. Chetan Sharma, Dr. Radhika Joshi, Dr. Parveen Dabas, Dr. Gulab Yadav, Dr. Sushil Nagar, Dr. Guarav Garg, Dr. Deepansh Sharma, Dr. Arpna Gupta, Dr. Varsha Goyal who have helped me to accomplish my research work and for providing research assistance, useful approach and cordial environment in the laboratory as well as in the Department. I can never forget the moments of share and enjoyment spend with my dear friends and colleagues Romika Dhiman, Pankaj Jiloha, Anish Bhuwal, Manpreet Kaur, Anuja Sharma, Anita Saini, Himani Singla, Anil Kumar, Vidur Bhatia, Sachin Gulati, Guarav Ahuja, Vipin Singh, Vikas Dutt helping me to complete my research and to extend my knowledge.

I wish to express my gratitude towards non-teaching staff of the Department, Dr. Subhash Chand, Sh. Ashok Kumar, Sh. Umed Singh, Sh. Hriday Ram, Sh. Prem Singh, Mr. Raj Kumar and Mr. Savan for their contributions to see this work as a success.

I wish to express my appreciation and sense of gratitude from the citadel of my heart to my parents for their unconditional support, love, prayers. My father, Sh.
Mamchand, in the first place is the person who showed ray of light, enlightening the confidence and always support me to carry on ever since my childhood. My mother Mrs. Lajjo Devi, who always inspire me to carry out big things and nurturing me with her love and care. My brother Mr. Parmod and sister-in-law Mrs. Ruman who always believe me. I would like to thank my in-laws-family my Father Sh. Jagir Singh who spared no effort to provide the best possible environment for me, my Mother Mrs. Shkuntala for her constant encouragement and delicious sweet dishes.

Words fail me to express my appreciation to my wife Mrs. Mamta Kasana, whose dedication, love and persistent confidence in me, has taken the load off my shoulder. I owe her for being unselfishly let her intelligence, passions, and ambitions collide with mine. I would like to thank her for the many sacrifices she has made to support me in undertaking my doctoral studies and for an excellent proofreading of this thesis and last but not least my loving nephew Manik who helped me in coming out of many frustrating moments during my Ph.D. research.

Finally, I wish to extend my warmest thanks to all those who have helped me with my work, as well as expressing my apology that I could not mention personally one by one.

(Vikas Kumar)
