ACKNOWLEDGEMENT

No research is ever the outcome of single individual’s talent or efforts. I must make special mention of some of the personalities and acknowledge my sincere indebtedness to them.

First and foremost, I pray and thank God Almighty who enlightens me with wisdom and courage for all the success in my life, without which all the efforts will be in vain.

It gives me immense pleasure to express my heartfelt gratitude to my research supervisor Dr. Annu Sharma, Assistant Professor, Department of Physics, Kurukshetra University, Kurukshetra for her meticulous guidance, patience, continuous encouragement, affectionate care, enthusiasm, inspiring remarks besides valuable suggestions to carry out this research work with confidence. It was a great privilege and honour to work and study under her guidance. I am very much grateful for her timely decisions during the course of the work and critical support, without which this work would not have been completed.

I pay my sincere thanks to Prof. Shyam Kumar, Dean Faculty of Science and former Dean Research and Development, Kurukshetra University, Kurukshetra for his support, blessings and kind help during the course of work.

I am highly obliged to Prof. R. K. Moudgil (Present Chairman), Prof. M. S. Yadav (former Chairman) Department of Physics, Kurukshetra University, Kurukshetra for providing me required infrastructure and essential research facilities in our department.

I present my sincere thanks to Prof. Sanjeev Aggarwal, Department of Physics, Kurukshetra University, Kurukshetra for his motivation and encouragement in the course of my research work. His invaluable suggestions, keen interest on the progress of the work, fruitful discussions and inimitable guidance made me able to reach this stage.

I extend my heartfelt thanks to Prof. Pawan K. Sharma, Department of Chemistry, Kurukshetra University, Kurukshetra for all the help rendered to me for the smooth execution of my experiments. I am grateful for his scientific suggestions and the
technical help while running my experiments. I would like to express my sincere gratitude to Dr. Rajnish Dhiman, University of Southern Denmark, Denmark for his support and help in characterization and for always making himself available for discussions.

My special thanks are given to Dr. Mukul Gupta, Scientist-E and Dr. U.P. Deshpande, Scientist-D, UGC-DAE Consortium for Scientific Research, Indore, for providing the necessary characterization facilities. I acknowledge Dr. Rishipal Chauhan, Associate Professor, National Institute of Technology, Kurukshetra and Prof. Sanjeev Arora, Department of Chemistry, Kurukshetra University for their help and generosity in carrying out my research work.

I also acknowledge the assistance rendered by my senior research fellows Mr. Sitaram and Dr. Navneet Chandak, Department of Chemistry, Kurukshetra University. I am extremely thankful Dr. Ashok Kumar, DCRUST, Murthal and Dr. Vinamarta Singh, Department of Physics and Astrophysics, University of Delhi for their kind help throughout my research work.

I would like to extend my sincere thanks to all the faculty members of Department of Physics, Kurukshetra University, Dr. Fakir Chand, Dr. Rajesh Kharab, Dr. Suman Mahendra, Dr. Manish Kumar and Dr. Hardev Singh for their help, cooperation and hustle during the tenure of my work.

I also extend my sincere thanks to Sh. S. K. Kaushik and all the non-teaching staff of Department of Physics, Kurukshetra University for their constant help and support.

I cherish the friendship I had and take this opportunity to thank each one of them. My special thanks to my dear friends Dr. Nidhi and Dr. Kalpana for their love and care like a sister and providing me homely environment during my work. Thanks to Dr. Hardev Saini who has always given guidance and support like an elder brother. Thanks for always being there and bearing with me the good and bad times during Ph.D.

My heartfelt thank goes to my lab mates Dr. Suman Bahniwal, Dr. Jyoti, Alisha, Meena and Sonal. This work was impossible without their cooperation and support. I am also grateful to my co-researchers and friends Mahak, Meetika, Ruby, Ambika, Divya, Rajeev for maintaining a cooperative and friendly environment in the department.
I thank all the research scholars of Department of Physics, Kurukshetra University for their kind support.

At this moment I remember with love and thanks, the inspiration, love and prayers of my parents and my brother Aashish Saini. I can’t imagine my current position without their constant love and support. Thank you so much for your unconditional love and affection.

My heartiest thanks go to my in-laws for their kind cooperation and help at the last stages of my work.

I fail in my duty if I do not express my gratitude to my husband, Mr. Neeraj Saini, for the understanding and patience he has shown at all times. His constant emotional support is the actual driving force that enabled me to reach this stage today. Thank you so much for your faithful love, patience and endless help.

I take this opportunity to thank University Grants Commission, New Delhi for providing the financial assistance in the form of UGC-BSR fellowship.

(Isa Saini)
