Acknowledgement

This thesis is the end of my journey in obtaining my Ph.D. I have not travelled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and various institutions. At the end of my thesis, I would like to thank all those people who made this thesis possible and an unforgettable experience for me. At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

At this moment of accomplishment, first of all I am extremely indebted to my guide, Dr. B. Duraiswamy, this work would not have been possible without his support and encouragement, guidance and his endless kindness. He has given me enough freedom during my research, and he has always been nice to me. I will always remember his calm and relaxed nature, I am thankful to the Almighty for giving me a mentor like him.

It would be of great bliss to put on accord the sincere gratefulness to our respected Vice-Chancellor, Dr. B. Suresh, whose interest in all aspects of pharmacy has invigorated us and am thankful for the efforts made in providing all the necessary facilities for the successful completion of our work at J.S.S. college of Pharmacy, Udhagmandalam. I wish to express my deep sense of gratitude and sincere thanks to our Principal J.S.S. college of Pharmacy udhagmandalam, Dr. K. Elango, for his constructively criticizing advices and support while doing my work.

I take this opportunity to sincerely acknowledge Mr. P. Dhamodaran, Assist. Professor, Department of Pharmacognosy, for encouragement during my project work. I genuinely thank to Dr. Nilani P., Professor, Department of Pharmacognosy, for her encouragement and constant moral support during my study. The non-teaching staffs of the Department of Pharmacognosy have always been friendly and co-operative with me. They include Mr. Divyashankar, Mr. S.N. Mahadevswamy, and Mr. Siddaraju. I place on record here my heartfelt gratitude to them.

I thank Dr. M.N. Satishkumar, Prof. & Head, department of pharmacology, for his support and permitting me to use the animal house facility during all studies of my doctoral research work. I also thank the non-teaching staff of Department of Pharmacology, which includes Mr. Arun, Mr. Basavaraj and Mr. Guru for the readiness with which they have extended their help to me. I also thank Mrs. Sujatha from Department of Pharmaceutical analysis for help and support for performing IR spectroscopy study of my samples.

I am deeply grateful to Dr. Himadri Sen, Scientific Advisor and Board member Unimark Remedies Ltd., Ahmadabad, India, who have been a steady influence throughout my Ph.D. career; His support, motivation, constructive criticism, suggestions, care, blessings were encouraging all the time during this journey.

Most of the results and test materials described in this thesis would not have been obtained without a close collaboration with few laboratories. I express my sincere thanks to Natural
Remedies, Bangalore, India for providing the gift sample of Gymnema sylvestre extract. My special thanks to Dr. Vinod Arora, Vice president, Ranbaxy Research Laboratories, Gurgaon, India for providing gift samples of Glimepiride and chitosan for my studies. I am also thankful Dr. P. K. Sinha, DGM Analytical, Unimark Remedies Ltd., Ahmadabad, for providing facility of spectral analysis. I owe a great deal of appreciation and gratitude to Mr. Shirish Janarao, Mr. Laxman Khatal, and Mr. Amol Jadhav from Bio-Analytical Technologies Ltd, Pune, India because without them, LC-ESI-MS/MS would have not been possible for this project. I expand my thanks to Mr. Shrikrishna Pawar and Ms. Sonali from Synapse Laboratories Pvt. Ltd, Pune for processing plasma samples and for processing the data on WinNonlin software. I am grateful to Mr. Ganesh Barhate and Ms. Tina from Dr. Bhat's Group, Polymer characterization Lab., National Chemical Laboratories, Pune India, for helping me in carrying out particle size, zeta potential, SEM and TEM analysis. I appreciate and acknowledge the support extended to this project by Dr. Amol Harshe and his team from Plus Laboratories, Nobel Hospital, Pune for carrying out the detailed histopathological studies on the samples provided.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of all hard work, sincere efforts and constructive criticism of Mr. Ankur Gupta and Dr. Dada Patil who were always there when I really needed. Thank you doesn’t seem sufficient but it is said with appreciation and respect to both of them for their support, encouragement, care, understanding and precious friendship. My association with Dr. Dada Patil goes a long way since days of post graduation and he has been with me ever since then as a friend. I am much indebted to him for his valuable advice in my work, spending his precious time to read, write and work for this project and all his valuable inputs during the work.

A good support system is important to surviving during the journey of Ph.D. I was lucky to have my support system in the form of my best buddy, Ankur. His attitude of living every moment as it comes, making serendipitous observations and converting them to new possibilities, correlating ideas and understanding the obvious has helped me come a long way. The work done with him has taught me how a person can succeed in achieving what seems impossible to begin with...... Thank you dost for everything.

It’s my fortune to gratefully acknowledge my beloved friend, Ms. Deepa Pathak, for her support, generous care and making me homely feeling at Ooty when it was needed. She was always beside me during the happy and hard moments to push me and motivate me. I am thankful to Deepa for her love understanding and friendship. I am indebted to my many student colleagues for providing a stimulating and fun filled environment. I am ever indebted to Ismail. I admire his distinguished helping nature. My special appreciation goes to Seema for her friendship, affection and support. Many rounds of discussions on this project with both of them helped me a lot. Both of them have been an invaluable support day in, day out, during all these years. My special thanks goes to Swapnil whose support, love and encouragement all through the years. Mr. Pankaj Masih, Mr. Vishal Awari, Mr. Jayshankar Kosaraju,
deserve special mention here for their constant support, motivation and help during these years.

I would also like to thank Sagun Sharma, Priya Singh, Chaitnya, Girish, Humor, Sonu, Niroj, Ayush student colleagues who helped during this project in the best of their capacity. I would also like to thank some people from early days of my research tenure Ms. Aparna Nagpal, Mr. Arafat, Mrs. Souimyashree, Ms. Merlin, Mr. Azzharudin, Dr. Arunadevi, Mr. Manjunath were among those who kept me going at the beginning.

I convey special acknowledgement to Mr. Kapil Juvale, DAAD Fellow, Dept. of Pharm. Chemistry, University of Bonn, Dr. Pravin Bhansali, Postdoctoral Research Associate at the University of Toledo, Dr. Ravi Dhumal, Consultant - Pharmaceutical Regulatory Affairs at GSK. Even after being far away, distance was never barrier for them when I was in need of their help.

I would also like to extend huge, warm thanks to all my dear friends who are not there on the canvas of pharmacy Atul, Sujta, being with me in thicks and thins of life. I also thank Mr. Nazeer, Mrs. Farida whose support, affection encouraged me during journey of my Ph.D.

For inspirational discussions and support I thank my mama, Mr. Artist and Author Prakash Joshi who has been always great supporter for me all through my life.

If there are feelings that can only be understated with words, this is definitely one of them. I could not expect more or be more grateful to anyone. You have always been there for me, either at a distance or visiting every time you could, and always did your best for me my wonderful parents. I would like to pay high regards to my Aai and Baba for their sincere encouragement, blessings, love, patience, understanding and inspiration not only throughout my research work and lifting me uphill this phase of life but for everything that made me the person who I am today.... I owe everything to them.

I take this opportunity to sincerely acknowledge the University Grant Commission New Delhi, for providing Rajiv Gandhi National Fellowship award, for financial assistance in the form of Senior Research Fellowship.

I acknowledge those animals who have sacrificed their lives for the accomplishment of my study.

I thank His Holiness Jagadguru Sri Shivarathri Deshikendra Mahaswamiji for his blessings. I thank the Almighty GOD for giving me the strength and patience to work through all these years so that today I can stand proud with my head held high. It is said that it is no coincidence who you meet on the journey. I have had the fortunate of meeting so many wonderful people on the journey, capable and ready to guide, help, and advice me. I sincerely thank all of them who contributed in for helping me to see the light at the end of every scary tunnel during my Ph.D.

Bhagyashree Kamble
CERTIFICATE

This is to certify that the thesis entitled, “Newer Approaches in Herbal Drug Development: Quality Control, Standardization, Bioavailability and Herb-Drug Interaction Studies on Gymnema Sylvestre” submitted by Ms. Bhagyashree Kamble to the J.S.S. University, Mysore, in partial fulfilment of the requirements for the award of the degree of Doctor of Philosophy, is the result of her original and independent research work carried out at the Department of Pharmacognosy, J.S.S. College of Pharmacy, Udhagamandalam, during 2009-2012 under the direct supervision of Prof. B. Duriaswamy, J.S.S. College of Pharmacy, Udhagamandalam. The thesis or any part thereof has not formed the basis for the award of any degree, diploma, associateship, fellowship or any other similar title of this or any other university previously.
