ACKNOWLEDGEMENTS

I am grateful to the authorities of the Karnataka University, Dharwar for the facilities provided at the Marine Station, Karwar and also for the award of University Studentship (1971 to 1974) during which I could partly complete my work.

To the Decapod authorities Prof. Dr. L.B. Holthuis, Leiden Museum, Netherlands and Dr. Fenner Chace, Jr., Smithsonian Institution, U.S.A. I owe my special gratitude for their kind help in confirmation of identification of my material and also in getting me xerox copies of some of the important references which I could not have obtained otherwise.

To Dr. Sheldon Dobkin, University of Miami, U.S.A., Dr. D.I. Williamson of Port Erin, U.K. and Prof. Dr. C.V. Kurian of Cochin University, India, I am specially indebted for their kindness in sending me their personal reprints and or xerox copies of some of the rare papers, and so also to Dr. Hayashi, Japan for so promptly identifying my Processid material and sending his important paper on the Revision of the Processid shrimps of the Indo-West Pacific.

I acknowledge my most sincere thanks to the Director of the Zoological Survey of India, Calcutta, for both laboratory and library facilities and to Dr. K.K. Tiwari, Joint Director for the various enlightening discussions on my problems, information on the Indian Processids and also his guidance in the study of some of the museum material, as well as for loan of material. Thanks are also due to Director, National Institute of Oceanography, Panaji, Goa.
For library facilities and loan of references, I render my heartfelt thanks to the concerned authorities of the following institutions: Karnatak University Library, Dharwar; Zoological Survey of India, Calcutta; Taraporevala Marine Biological Research Station, Bombay and Marine Biological Research Station, Ratnagiri - of the Konkan Krishi Vidyapeeth; Andhra University library, Waltair; Central Marine Fisheries Centre, Karwar. Thanks are also due to the Heads of the Zoology and Geology Depts., Karnatak University, Dharwar, for the facilities as and when required.

It is my pleasure and privilege to most sincerely thank here - Shri. A.S. Patil, Jr. Engineer, Karnatak University, and Dr. Chawadi, Geology Dept., Karnatak University, who took special interest and extended ungrudging help in preparation of the ammonia prints of my drawings and to my friends and colleagues, Sarvashri. Ravindra Paul, Dileep Jalihal and G.S. Bhuti for their zealous help at various stages of my work.

Also my pleasant thanks are due to Shri. C.S. Kumbar for timely and neat typing of the thesis and to Shri. Damodar Patgar for the everwilling assistance in the field work.

It is with deep gratitude that I wish to record here my indebtedness to Dr. (Smt). Shakuntala Shenoy for her kind help, everwilling guidance at every stage of my work and particularly for critically going through the manuscript of the thesis.
Lastly, I take this opportunity to pay my most affectionate and respectful gratitude to my Guide Dr. K.N. Sankolli, Head of the Dept. of Marine Biology, Karwar, for his constant and loving encouragement and inspiring guidance both in my practical work and compilation of the thesis, despite the odds, heavy pressure of work and time we both have had with the new Dept. of Marine Biology.
