ACKNOWLEDGEMENTS

With deep sense of gratitude I acknowledge my indebtedness to Dr. C.J. George, M.A., D.I.C., Ph.D. (London), without whose guidance, supervision and constructive criticisms, it would not have been possible for me to carry out this work.

I gratefully thank, Professor M. Appaswamy Rao, M.Sc., Ph.D. (Mysore), Ph.D. (Wisconsin, U.S.A.), Head, Department of Zoology, Karnataka University, Dharwar, for providing the necessary facilities.

The electronphotomicrographs were taken by Professor J.C. George, Department of Zoology, University of Guelph, Guelph, Ontario, Canada, for which act of generosity, the author is grateful to him.

The radioassay techniques described in the present thesis was carried out in the Biochemistry Department, Indian Institute of Science, Bangalore. The author is grateful to Dr. J.Ganguly, Professor of Biochemistry, for providing the necessary facilities and to Dr. P.V. Subbaiah, Indian Institute of Science, Bangalore for his keen interest and technical help in carrying out the radioassay work.

I thank all my research colleagues and friends who have helped me in various capacities during the course of this work.

My thanks are due to the Secretary, University Grants Commission, New Delhi, and authorities of the Karnataka University for providing the financial assistance during the course of this research work.

Lastly I wish to express my appreciation for the help rendered by Sri P.R. Patil, Photographer, Department of Zoology, Karnataka University for preparing the photomicrographs.

Department of Zoology, Karnataka University, Dharwar-3 580003
