ACKNOWLEDGMENT

First of all I convey my heartiest thanks to the almighty without whose kind blessing none of the human beings is able to do anything. Then, at the very outset I would like to acknowledge the valuable help of some people without whose contributions it would not have been possible to complete this research work.

My special thanks goes to my respected supervisor, Dr. G. Ram, for his instigation and untiring perennial help which enabled me to complete the research work. Therefore, I remain ever indebted to him for his valuable guidance.

I have the pleasure in expressing my sincere gratitude to all the Barman people of the Silchar town who accepted me and rendered all possible help and made it possible for me to complete the work. Without their help it would not have been possible to carry out the investigations. I shall be failing in my duty if I don’t mention the names of a few of them like Sri Uttam Chand Barman, Sri Biswajoti Barman, Sri Sudhir Barman, Sri Suresh Chandra Barman, Sri Bidhan Barman and late Sunil Barman. I express my sincere gratitude to all of them.

I must express my sincere gratitude to all my family members who gave me constant encouragement and kind suggestions as and when I required.

Finally, I extend my heartiest thanks to all well wishers who directly or indirectly helped me in the production of a better manuscript of the work.
