ACKNOWLEDGEMENTS

This thesis as already mentioned, is dedicated to my revered teacher late Dr. S.M. Jorapur, M.Sc, Ph.D, PBS, Head of the Department of Botany, Karnatak University, Dharwad. Without his constant encouragement, intimate guidance and help, compiling it in the form of thesis would have remained a mere dream. I remain ever grateful to him.

Incidentally, I must mention here that this work was to be dedicated to my dear sister, late Mrs. A.K. Subbamma, M.Sc, who also happen to be a student of Dr. S.M. Jorapur and the department of Botany, Karnatak University, Dharwad. It is she who inspired me to study Botany as a core subject and specialize in it later – to reach the present stage.

I am ever indebted to all my revered teachers who shaped me to be what I am today. They are: Dr. M.S. Chennaveeraiah, M.Sc. Ph.D. D.SC (Montreal), Dr. M.G. Panchaksarappa, M.Sc. Ph.D., Dr. S.G. Bharati, M.Sc, Ph.D. and Prof. A. Suryanaryana.

I am also indebted to Dr. K. Nataraja, M.Sc. Ph.D. Chairman, Department of Studies in Botany, Karnatak University, Dharwad, for his help especially during the concluding stages of this work. I am also indebted to Prof. G. Boraiah, Head of the Department of Sericulture, Bangalore University, Bangalore for his keen interest in my work.
I would be failing in my duty if I do not record here the kind encouragement and help received from my seniors in the orchid laboratory. Special mention must be made of Dr. S.D. Phatak (Presently lecturer, Dempo College, Panaji). Her services and guidance have taken me a long way in this venture, especially after the demise of my research guide Dr. S.M. Jorapur. I am grateful to her.

Numerable persons have helped me in several ways during the course of these three years. It is difficult to recall all their names and record them here. However, to mention of few: Mr. Santhosh Rai, Orchid collector, Lyad Botanical Gardens, Darjeeling for his services during several plant material collection trips. Messers Aakar nice prints, Hubli and especially its young proprietor Mr. P. Rajkumar, M.Sc. (Age) for their technical service in producing colour prints; Sri. R.S. Desai the artist for the excellent drawings. Also my fellow researchers in the department, Dr. P.T. Krishna Mohan, Sri. P.B. Patil, Mr. K.M. Diwakar, Mr. R.P. Ravindra Singh, Mr. A.V. Veeresh, Mr. S.A. Kappali, Mr. Y.H. Prakash are all to be remembered. I am grateful to them. Besides my thanks are due to few other friends on the campus who have encouraged me by keeping company in the laboratory during late hours. They are: Sri. S. Parameshwara, Mr. Nataraj, Mr. S.I. Patil.
But for the blessings of my parents and the encouragement of my brothers and sisters who in a way have borne the brunt of supporting me (financially), this work would not have seen the light of the day. I am ever indebted to them all. Finally my thanks are due to the concerned authorities of the University Grants Commission, New Delhi, as also the authorities of Karnataka University, Dharwad for their help.

Dharwad.

(A.K. Bopaih)
