Acknowledgements

I am extremely happy to express my profound sense of gratitude to my mentor and supervisor Dr. Gopal Krushna Pal, Professor of Physiology, JIPMER, for his diligent guidance and adept counsel. He has been a brotherly figure and the munificence that he has shown is a constant source of confidence.

I am grateful to the Director, Medical Superintendent and Dean, JIPMER, for providing institutional facilities and permitting me to carryout this work.

I owe my sincere gratitude to doctoral committee members Dr. Zachariah Bobby, Assistant professor of Biochemistry, JIPMER, and Dr. B. B. Reddy, Professor and Head, Department of Physiology, RCVS, Pondicherry, for their critical suggestions all along the study.

I wish to express my sincere gratitude to Dr. Madanmohan Trakroo, Director-Professor and Head of the Department of the Physiology, for his support and encouragement throughout this study.

I would like to thank Professor and Head, Department of Biochemistry, JIPMER, for permitting me to use RIA facility for the estimation of T3 and T4 hormones and Autoanalyser for the estimation of tryglycerides and cholesterol.

I wish to express my deep sense of gratitude to Dr. Bindu M Kutty, Associate professor, Department of Neurophysiology, National Institute of Mental Health And Neuro Sciences (NIMHANS), Bangalore, for permitting me to use histology facilities. I also thank Rekha, Ph.D Scholar, Department of Neurophysiology, NIMHANS, Bangalore, for her timely help in making histology sections.

I would like to thank Dr. P. Vijayalakshmi, Professor of Physiology, Dr. G.S. Gaur, Associate professor of Physiology and Dr. Pravati Pal Assistant professor of Physiology for their constant encouragement during the study and my sincere thanks to Dr. N. Krishnamurthy, Associate Professor of Physiology, PIMS, Pondicherry for the many fruitful discussions that I have had with him enable to hone my skills in stereotaxic surgery.

I am deeply indebted to Mrs. Selvam Sri Ramachandra Raj and Mrs. Bharati Balakumar for teaching me stereotaxic surgery and also their invaluable technical assistance at all stages of the work, otherwise this study would not have been possible.
I would like to thank my friends Dr. Kaviraja Udupa, Dr. Ravindra, Dr. Prakash, Shyama and Pavithran for their solicitous companionship throughout the study.

Acknowledgements are also due to Dr. Nandeesh, Senior Resident, and Selvaraj and Nivedita, Ph.D Scholars, Department of Biochemistry, JIPMER, for their help at various stages of the study.

I wish to thank Dr. Ravindran, Professor of Pharmacology and Dr. Ajay, Senior Resident, Department of P&SM, JIPMER, for their conscientious help in analyzing the data.

I would like to express special words of thanks to my friends Dr. Murali, Sahu, Vittal Prakash, Thangadurai and Chandrasekhar for immense support and their presence made me to feel immense comfort.

My sincere thanks to Mr. Subramaniam (Retd), Mr. Shaktivelu, Mrs. Lalita, Mrs. P. Sentamija Selvy, Mr. Ramalingam, Mr. Dandapani, Mr. Balasubramaniam, Mr. Subramaniam, Mrs. Chinnaveera Lakshmi, Mr. Ganapati, Mr. Daniel, Department of Physiology for their help during the study.

I take this opportunity to express my deep sense of gratitude to my well wishers Dr. B. Narasinga Rao, Dr. B. Muralidhar and Dr. P. Upendra Goud.

I am immensely happy to express my earnest thanks to my very special friends Ravi, Ramakrishna, Dr. Chetana and Er. Shivaraj, for their solicitous friendship, and their invaluable help has made this endeavor successful.

I am deeply indebted to my brother, Mr. B. Venkata Rama Rao and brother-in-law, Mr. N. Venkateswar Rao for their understanding, patience and encouragement in all aspects of this study.

Last but not least, I will ever remain grateful to all the animals used for this thesis work.

Bodepudi Narasimha Rao
