ACKNOWLEDGEMENT

I am highly grateful to Dr. G.S. Bidara-Koppa, Professor and Head of the Department of Social Work, Karnatak University, who has guided me throughout the years of my study by giving useful suggestions, providing the time and human kindness that were indispensable in making this piece of work a reality.

I am grateful to Dr. M. Natarajan, Professor and Head of the Department of Neurology and Neurosurgery for having given me permission to carry out the study and for his guidelines from time to time.

I would like to thank Dr. Sabesan, Assistant Professor of Madurai Medical College, Madurai and Dr. Rawlin Chinnain, Clinical Psychologist, Madurai Medical College, Madurai for their competent help from time to time.

I am extremely grateful to the Dean, Madurai Medical College and Dr. K. Srinivasan, Professor of Neurology for having provided necessary facilities in completing the task.

I am greatly indebted to Dr. G.N. Narayana Reddi, Director, National Institute of Mental Health and Neuro Sciences (NIMHANS), Bangalore for having giving necessary consent to avail the Library facilities.
I thank Mr. Subba Krishna, Assistant Professor of Bio-Statistics, National Institute of Mental Health and Neuro Sciences, Bangalore for his help in statistical analysis.

I am especially grateful to Dr. Padmanaban of Thiagarajar College, Madurai for his help in correcting the manuscript.

I express my gratitude to my own students for their timely help.

Last but not the least, I express my deep sense of gratitude to Mr. Britto, Mr. Raja Sakthivel for his assistance in correcting the manuscript.

T. B. B. S. V. Ramaiah
