ACKNOWLEDGEMENT

At the outset I would like to record my deep sense of gratitude to the Almighty who has blessed me with the wisdom and courage to complete this hard task successfully by illuminating what was dark in me.

The journey in the course of completing my Ph.D. includes several individuals who in all means have contributed and extended their valuable assistance in the preparation and completion of this study. At the end of this pleasant journey, words can’t be expressed to express my earnest gratitude to thank all those who had been with me from my early days to the present.

To begin my indebtedness, I first would like to pay my salute and heartfelt gratitude to my guide, Dr. A. Ganapathi, Professor, Department of Biotechnology, Bharathidasan University, Tiruchirappalli. This work would not have been possible without his guidance, support and encouragement. Under his guidance, I successfully overcame many difficulties and have learnt a lot. He used to review my work progress, offer his valuable suggestions and has guided me in the right path. His unflinching courage and conviction has always inspired me, and I hope to continue to work with his noble thoughts. I am greatly indebted to my guide Dr. A. Ganapathi for all his assistance that he has given me to accomplish my research work.

Words are inadequate in offering my tribute to Dr. N. Selvaraj, Associate Professor and COE, Department of Botany, Periyar E.V.R College, Tiruchirappalli for his abundant help, invaluable assistance, support and guidance. It is significant to say that he has been a source of inspiration from the right beginning and for what I am today. He has been a valuable patronage in extending his generous assistance throughout in the preparation of this study and age will never wither his colossal support in the successful completion of this work.

I express my deepest gratitude to Dr. A.S. Rao, Professor, Department of Biotechnology, Bharathidasan University, Tiruchirappalli for his valuable advice, constructive criticism and for his extensive discussions around my work.
I wish to express my thankfulness to Professor and Head, Dr. T. T. Thirunalsundari, Department of Biotechnology, Bharathidasan University, Tiruchirappalli.

I am pleased to express my heartfelt thanks to my Doctoral Committee Member Dr. N. Jayabalan, Professor, Department of Plant Science, Bharathidasan University, Tiruchirappalli for his constant support and encouragement.

I take this opportunity to sincerely acknowledge the Department of Biotechnology (DBT), Government of India, New Delhi, for providing financial assistance in the form of Senior Research Fellowship which buttressed me to perform my work comfortably.

My special thanks to Dr. Kyung-Hwan Kim, National Institute of Agricultural Biotechnology ("NIAB") in Rural Developmental Administration, 225, Seodun dong, Gweonsun gu, Suwon, South Korea for providing the Agrobacterium strains and valuable suggestions, and Dr. Chung of Dong-A University, South Korea for his help to get the strain from Dr. Kyung-Hwan Kim.

I would like to express my sincere thanks to faculty members Dr. K. Balakrishnan, Dr. S. Sivaramakrishnan, Dr. M. Muthuselvam, Guest Lecturers and non-teaching staffs, Department of Biotechnology, Bharathidasan University, Tiruchirappalli for their suggestions, inspiration and also for their constant moral support.

I am extremely thankful to my senior, Dr. M. Manickavasagam, Assistant Professor, Department of Biotechnology, Bharathidasan University, Tiruchirappalli for his constant encouragement, valuable support and untiring help during my Ph.D. tenure.

I owe a great deal of thanks to my senior, Dr. S. Girija, Assistant Professor, Department of Biotechnology, Bharathiar University for helping me to carry out HPLC analysis in her laboratory. I also extend my heartfelt appreciation to all the Ph.D scholars of her lab who shouldered me to complete the work successfully.
I am highly indebted to my Uncle Prof. G. Balasubramanian, Head (Rtd.), PG Department of Chemistry, Periyar E.V.R college, Tiruchirappalli for his continues encouragement throughout my work and for lifting me uphill in the completion of my research work.

I am immensely thankful to Dr. S. Arjunan, Assistant Professor, Department of Biotechnology, Vivekanandha College of Arts and Sciences for Women, Tiruchengode who has been my role model in research and it is his motivation which has made me to step into the field of research.

This list would be incomplete without acknowledging my seniors Dr. G. Vengadesan, Dr. S. Amutha, Dr. V. Ramesh Anbhazhagan, Dr. P. Suresh Kumar, Dr. M. Muruganatham, Dr. A. Vasudevan, Dr. B. Sudhakar, Dr. S. Kasthuri Rengan, Dr. T. S. Maria Shibu, Dr. J. Joseph Sahaya Rayan, Dr. M. Mathiyazhagan, and Dr. S. Mayavan who were among those who kept me going at the beginning and extended brotherly love towards me. They were the source of inspiration for me in my early days and without them this work could have not been possible.

I wish to thank my juniors P. Logesh, M. Rajesh, G. Sivanandhan, M. Jeyaraj, K. Subramanyam, G. Kapil Dev, G. Velmurugan, B. Jaganath, J. Theboral, J. Jenifer, T. Kirubakarn, A. Arjunan, S. Balakrishnan and all others for providing a stimulating and fun filled environment in the completion of this work.

It’s my fortune to acknowledge the support of some special individuals. I am really grateful to Mr. G. Kandasamy, ASO, Department of Biotechnology, Bharathidasan University, Tiruchirappalli for his constant support, encouragement during my course of Doctoral study.

I wish to pay my sincere thanks to a humble and sweet person Dr. G. Somasundaram, Assistant Professor, Department of English, H.H.The Rajah’s College, Pudukkottai for his kind help and assistance in the completion of my work.

Words are not enough to express my thankfulness to my Anna S.A. Shafi, ASP computers for his continuous support and endless help in the completion of my work.
My honest thanks to S.P. Shiva Anna, New Digital Studio, Tiruchirappalli for his diligent efforts in the perfect photographic work of my research work.

I extend my thanks to lab assistant Mr. I. Arockia Saviri Rajan for his help in maintaining the experimental garden.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. My time at Bharathidasan University was made enjoyable in large part by my friends and groups that became a part of my life. I am greatly delighted for the time spent with my roommates, my backpacking buddies, for many other people and for all the sweet memories which will never fade in my life. I wish to thank all my best friends for their love, care and moral support. They were always beside me during the happy and hard moments to push me and motivate me.

Finally, yet importantly, I would like to express my heartfelt thanks to my beloved family members, Appa Dr. V. Muthukrishnan, Civil Surgeon (Rtd.), Government Hospital, Bodinayakanur, Amma M. Saraswathi, Anna M. Anand, Assistant Professor and Head Department of English, V.S.B.Engineerig college, Karur, Anni A. Revathy and their loveable son A. Sachin, mama U. Thiyagarajan, South Indian Green Cardamom Company Ltd., Vandanmedu, Kerala and Akka M. Nandhini.

Besides all I earnestly thank each and every one from the bottom of my heart and I also pay my sincere apology to those if I have not offered my thankfulness.

M. Arun.
