ACKNOWLEDGEMENTS

The Present thesis is the Product of Dr. S. R. Ijari's warmth and able guidance. He is not merely a guide for the thesis, but also a living authority on Public Library System. His thesis was an Important source document from which stems my thesis. I am sure, he will remember the agony of persuading and physically chasing me to complete this work, whenever he sees my thesis on his personal collection. I bow to him with a sense of gratitude.

While valuable suggestions from Prof. K. S. Deshpande and Prof. M. R. Kumbhar provided backbone to my work Dr. C. R. Karisiddappa, Dr. S. L. Sangam, Mr. B. S. Maheshwarappa, Mr. B. D. Kumbar, Mr. P. V. Konnur (all from Karnatak University), Dr. P. Sadashivamoorthy, Br. A. Y. Asundi (Both of Bangalore University) provided the other necessary support from time to time, through and their thoughts. Mr. B. V. Rajashekar/ Dr. S. K. Savanur provided some pep to the language and logic of the dissertation. I remember Mr. G. B. Hombal, Chief Librarian, District Central Library, Mangalore and Mr. Indudhar Hiremath, Geeta Medicals, Dharwad and a host of several friends, well-wishers and my wife Smt. Vimala with a deep sense of gratitude.
Above all, I must thank the Government of Karnataka for granting permission to do research and the Directorate of Public Libraries, Bangalore for providing the necessary information.

My thoughts reach the readers through these drab pages and the cold print, processed by warm hearted Mr. Dileep Accanoor, D. K. Computer Centre, Bhandup (West), Bombay - 400 078. But for his sleepless nights I could not have met the deadline for submitting the thesis.

Friends, I thank you all.

S. H. Chandrangioudar.
