ACKNOWLEDGMENT

I am grateful to my guide Dr. R. N. Desai, Reader and Head of Zoology Dept, Karnatali Sci. College, Dharwad, for suggesting this problem and guiding me throughout the course of this work. Likewise, I have received encouragement during my work from Prof. Dr. V.B. Nadkarni (Rtd.), Prof. Dr. S.K. Saidapur, Chairman and Dr. M.A. Hooli of the Post-graduate Department of Zoology, K.U.D. and Prin. D.M. Pujari, Dr. K.M. Pathan and Dr. M.Y.M. Jamrhandi from Karnataka Sci. College, Dharwad. I am deeply indebted to all these teachers. Mention must be made about the unstinted co-operation extended to me by my friends and the research scholars - Dr. U.G. Mummigatti, Dr. K.M. Shivaraaj, Mr. Manoharan, Mr. B. Manivannan, Miss M. Kasturi and Miss Saroja S. Nail without which the work could not have been completed in time. I am extremely grateful to them.

All our laboratory staff helped me to a great extent in procuring the host specimens during the course of this work. Shri. Hagargi, BIME Photographics Dharwad and Mr. Shivaram Ubbayakar of U.S. Computers Hubli, have taken all the pains to provide fine results in the Photography work and the computer typing work respectively of this thesis. I am really very much thankful to all of them.

During this work for four years, my husband, my In-laws and my parents not only co-operated with me but also tolerated me to the maximum, without which this work could not be completed. A single sentence "I remain grateful to all of them for ever" conveys all my sentiments towards them.
