ACKNOWLEDGEMENT

I express my deepest gratitude to Dr. G.C. Chikkur, my Research Supervisor, for his constant help, guidance and encouragement during the course of this work, and also for critical reading of the manuscript. The debt I owe to him is really very personal - not merely academic - and it cannot be rendered in words.

I wish to acknowledge the close co-operation of Professors, N. Umakantha, M.I. Savadatti and K. Suryanarayana Rao in carrying out the work presented in this thesis. I would like to express my deep sense of gratitude to them for providing the necessary facilities and the encouragement they gave me. I am also grateful to Professor V.M. Korwar for his constant encouragement.

It is with great pleasure that I express my gratitude to Dr. B.G. Mulimani for many invaluable discussions and helpful suggestions during the course of the present work. I also wish to thank Professor B.G. Jyoti, Drs. D.K. Deshpande, M.A. Shashidhar and A.M. Karaguppikar and Sjts. G.C. Hiremath, S.R. Thontadarya and V.D. Karpi for their helpful co-operation during the course of the present work. I also wish to thank Dr. C.R. Yeravintelimath, Reader, Department of English, K.U. Dharwar for going through the manuscript.

I have surely benefitted from the other members of the staff and the research colleagues of this Department.
In particular, I am thankful to Drs. Mathad, Ayachit and Sjts. N.M. Badiger, H.I. Badiger, Kundagol, Kallihal, Tonannavar, Vedeshwar and Inamdar for the co-operation.

I am also thankful to Drs. L.O. Basangoudar, M.L. Budni and B.M. Swamy of the Department of Chemistry, K.U. Dharwar for sparing their spectronic 2000 to record the absorption spectra of the molecules presented in the thesis. Thanks are also due to Drs. Nadagouda, Badachikar and Sjts. Ugarkar, Sheth, Joshi, Merwade, Rajur, Nayak and Gokavi for their help in numerous ways.

I express my thanks to the members of the non-teaching staff of this Department for their co-operation throughout this work.

For granting me the permission to pursue the higher studies, I am totally indebted to the authorities of the State Bank of India and the Karnataka University, Dharwad.

For their unfailing support, I express my sincere gratitude to Shri. M.K. Venkateshamurthy, Shri. D.S. Gopinath, Mrs. Chandraprabha Lalu and Mrs. Usha Hangal and my colleagues at State Bank of India, Karnataka University Campus Branch, Dharwad.
I am very much thankful to Mrs. J.S. Shivapuji for the neat typing of the thesis.

Finally, I acknowledge my debt to those who were my sources of inspiration and joy.

Department of Physics, (DEEERENDRA M. UMAHJEE)
Karnatak University,
Dharwar 580 003.

January 9, 1986.
