ACKNOWLEDGEMENTS

The work done in this thesis would not have been possible without the help provided by many persons in different ways.

Foremost, I am extremely indebted to my Research Supervisor, Dr. R. Ramesh, Associate Professor, School of Chemistry, Bharathidasan University, Tiruchirappalli 620 024, for giving me an opportunity to do research in the field of organometallic chemistry and catalysis under his supervision and strong leadership. His technical expertise, constant guidance, thought provoking discussions, constructive criticism and perpetual inspiration always acted as motivating factors to my research work. His creativity, perfectionism, effectiveness, and broad knowledge in Chemistry, together with humbleness were truly encouraging and amazingly contagious. I am extremely thankful to him for his immense training and never-ending support rendered at all times during the course of my work. It has been a pleasure working in his group.

With immense pleasure, I wish to express my sincere gratitude to Prof. R. Renganathan, Doctoral Committee Member, School of Chemistry, Bharathidasan University, for his timely assistance, valuable advice, extensive discussion, and enthusiastic encouragement throughout my research work.

I owe my special thanks to The Head and all other Faculty Members, School of Chemistry, Bharathidasan University, who have expanded my knowledge of Chemistry through their questions, conversations, suggestions and academic curiosity. I am also grateful to all the Non-Teaching Staffs of School of Chemistry for their valuable help and support.

I recall with gratitude the help and cooperation extended to me by my lab members, Dr. S. Kannan, Dr. M. Ulaganatha Raja, Dr. N. Raja, Mr. D. Pandiarajan, Ms. E. Sindhuja, Ms. A. Kanchana Devi, Mr. M. M. Subarkhan, Mr. M. Veerappan, Mr. G. Vinothkumar, Ms. S. Selvi, Ms. G. Banuppriya and Ms. G. Nithya, at different stages of my research work.

I am heavily indebted to Council of Scientific and Industrial Research (CSIR), New Delhi, India, for providing me the financial assistance in the form of Junior Research Fellowship (JRF) and Senior Research Fellowship (SRF) which buttressed me to perform my work comfortably.
DST-FIST, UGC-SAP and UGC-COSIST are gratefully acknowledged for providing instrumental facilities like single crystal X-ray diffractometer, NMR spectrometer, UV-Vis spectrophotometer, spectrofluorimeter, FT-IR spectrometer and electrochemical potentiostat available in the School of Chemistry, Bharathidasan University. I take this opportunity to sincerely acknowledge School of Chemistry, University of Hyderabad; Department of Chemistry, Banaras Hindu University; Department of Chemistry, Pondicherry University; SAIF, Indian Institute of Technology Madras and STIC, Cochin University of Science and Technology for providing instrumental facilities to characterize some of my samples.

The person who deserves a special mention over here is my colleague, Ms. J. Lakshmi Praba. She has been my friend, staunch supporter, well wisher and stood with me in all endeavours and cherishing moments. Her support always regenerated confidence in me when I squander during my research career.

My sincere thanks are extended to my friends, Ms. R. Subha, Mrs. S. Revathi, Mr. J. S. Nirmal Ram, Ms. B. Rosmitha, Ms. K. Angira, Ms. T. Tasneem, Mr. J. Ganeshkumar, Mr. V. Thamaraj, Dr. Ahmad Husain, Mr. S. Ramesh, Mr. S. Karthik, Mr. S. Muralsidharan, Mr. D. Azhagan, Mr. T. Karikalan, Mr. R. Ramkumar, Mr. Girjesh Kumar, Mr. Ahmadhasim, Mr. R. Shanmugam, Dr. P. S. Vishnu, Mr. Suryabhan Singh, Mr. R. Vijay Solomon and Mr. K. Sakthivel, for their numerous help, unwavering support, patience and thought provoking talks about science and life in general over the years of study. I also thank all my other friends at the University for providing a stimulating and fun-filled environment.

Words won’t be enough to thank my parents, (Late) Mr. L. Narayana Prabhu and Mrs. Sarojam N. Prabhu, for being the best teachers of my life, showing interest in my likes and dislikes from my childhood and motivating me towards this successful academic career. I am truly grateful for their endless sacrifices, unconditional support, undying love, encouragement, blessings and prayers, which made tougher times look easier and are acts that could not be thanked by mere words.

Above all, I beseech before God Almighty for having made everything possible by giving me strength, grace and courage to carry out my research work successfully.

Rupesh N. Prabhu
