Acknowledgement

It has been my distinct privilege to have the meaning of research and education exemplified to me by my research advisor Dr. Vidyanand Revankar, Reader, Department of Chemistry, Karnataka University, Dharwad. He is a superb and creative teacher. All of his ideas and innovations have inevitably found their way into this thesis. I am grateful for his contributions to my learning and research.

I also consider myself very fortunate to have been associated with some excellent teachers, Professors, Vinayak Mahale and M.V. Kulkarni. I would like to acknowledge my indebtedness to them for giving so freely their time and helping me in many ways.

I am obliged to Prof. C.D. Daulatabad, Chairman, Department of Chemistry, Karnataka University for providing necessary facilities during the course of my research work. I am also thankful to Prof. A.H.M.S. Siddalingiah former Chairman of the Department, for his interest in my studies during the course of research work.

I wish to express thanks to my teachers Dr. T.R. Goudar, Dr. N.B. Mallur, Dr. B.M. Swamy, Dr. J. Seetaramappa, and Dr. K.B. Gudasi for their encouragement and useful suggestions.

I owe special thanks to Dr. Vijay Kumar Reddy, for fruitful discussions and in carrying out electrochemical studies, Dr. Noor Sahina Begum for determination of crystal structure of one of my compounds and Dr. Alok Bannerjee and Dr. Julia Jezierska, (Department of Chemistry, University of Wroclaw, Poland) for cryomagnetic studies.

I also thank Messrs G.V. Hegde and H.P. Doddamani, Department of Biochemistry, for their help in carrying out antimicrobial activity measurements

I thank the USIC, Karnataka University, Dharwad, CDRI, Lucknow, IISc (SIF) Bangalore, RSIC IIT, Madras and Mumbai, USIC Roorkee University, Roorkee for providing spectral and cryomagnetic facilities.

There are many friends who helped throughout my research. They know who they are, and I hope they will accept my sincere thanks for all that they did. In particular I acknowledge the help of:

I am fortunate to have most patient and understanding friends, Sunil Naik and Jagannath Chavan. I value the help of both these good friends.

My family has contributed much to the thesis, tangible and intangible, visible and invisible. My parents, brother and sister, have tolerated and provided much over the years including love, support. They 'have been there' when I needed their unique help. To all of them go my deepest gratitude and thanks.

I thank Karnataka University, Dharwad, for providing a Research Fellowship. The fine efforts of Jitendra and Kanchan of Nisseem Graphics were an important factor in the appearance of the thesis.

Anil D. Naik
