Acknowledgements

I express my deep sense of gratitude to my research guide Prof. Subhash C. Hiremath for his able guidance, constant involvement and encouragement during the course of my research work. His critical appraisal, assessment and invaluable suggestions have enabled me to successfully accomplish the present pursuit.

I wish to extend my sincere thanks to Prof. G. Shivakumar Swamy, Chairman, Department of Botany, former chairpersons of the department, Karnataka University for providing necessary research facilities and help.

I am grateful to my research colleagues Dr. C.G. Patil, Dr. Rekha, Miss. Annapoorna, Dr. Mulgund and other co-research scholars of botany department for their kind cooperation and help.

I owe my special thanks to my brother-in-law Shri. C.S. Srinatha for his kind cooperation and help during the collection of germplasm in Western Ghats.

No words would be enough for my mother Smt. Shobha, Sisters Smt. Madhavi and Smt. Manjula, brother-in-law Shri. Abhay for their active support and constant encouragement, which was indeed a source of inspiration for this formidable task.
