It is often difficult to put one's feeling into words. But the formality demands that, one should do so, to the extent possible.

I make sincere attempt to express my deep sense of gratitude to all those who helped me during the course of my research work, knowing fully well that my sweet words are no substitution for the pain that they have taken for me.

No words would sustain the appreciation to Dr. Ch. Ramesh, Reader, Department of Botany, Karnatak University, Dharwad for suggesting the problem, his eager involvement, invaluable guidance and moral encouragement.

I am grateful to Dr. A. Ramlingam, Dr. G. Shivakumar Swamy and Dr. S.C. Hiremath, Ex.-chairmans and Chairman Dr. B.C. Patil, Department of Botany, Karnatak University, Dharwad for providing the necessary facilities in the department and for their constant encouragement.

I am grateful to Prof. R.R. Hegde, Department of Botany, Karnatak University, Dharwad for their valuable help.

I am thankful to Dr. Giridhar Y. Nadoni, Harina, Kiran P. Kolkar, Ashok Chavan for their valuable help and timely co-operation.
Thanks is the worst word in friendship, yet I shall avail this opportunity to extend my sincere gratitude to my colleagues and friends Dr. S.Vijayakumar, Raju.K.M. Asha Deshpande, Shambu Goravar, Ravi Chavan, H.B.Shivakumar, G.S.Mulgund, C.G.Patil, Chidanand Madapur, S.V.Gaonker, G.M.Patil and many more in whose company I never felt the burden of my work.

I felt the inadequacy of diction to express my sense of gratitude, heartful respects and affection to my mother Yellawa, brothers Shyamkumar, Dundesh, sister Savitri (Shubanghi), sister-in-law Sangeetha, brother-in-law K. Surendrakumar and Mallesh Koli.

Last but not the least, I must record my gratitude to Karnataka University SC/ST cell, for providing fellowship to undertake my research work.

Date: 8th July, 1999
Place: Dharwad
