</table>
Smoking reduces tension and therefore is good for the health of the persons. (1-5)

The mother should not breast-feed her child when she is ill as it may harm the child. (1-5)

One needs a son to do the last rites/rituals so that the soul may rest in peace. (1-5)

Most children who fail their examinations are mentally retarded. (1-5)

At birth child is only a bundle of bones and flesh; the development of the brain actually starts after birth. (1-5)

Working women cannot make a happy family. (1-5)

Great saints can cure such diseases that cannot be cured by doctors. (1-5)

Disorder of menstruation cause insanity in women. (1-5)

Excessive consumption of alcoholic beverages may lead to oral, Laryngeal and Oesophageal cancer (5-1)

A pregnant woman who has AIDS can pass it on to her baby. (5-1)

Drinking alcohol in public is not decent, but one may drink, as he wants in his house. (1-5)

Vegetarian mothers cannot produce enough milk for their children. (1-5)

Children born after three four years of interval have much better chances of survival than those born within one or two years. (5-1)
Diarrhea is a common disease among children and one need not be panicky about it. (1-5)

All children with speech or language problem are mentally retarded. (1-5)

The wife should give her husband better food than she has herself. (1-5)

Insanity is the result of the sins of past lives. (1-5)

Good or bad health depends on the constitution of body. If the constitution of a person is good he will keep good health even if he does not care for it. (1-5)

Bottle-feeding is better than breast-feeding because tinned milk has extra strength. (1-5)

Early marriage leading to sexual intercourse at a very young age and having multiple sex partners may lead to cervical cancer in females. (5-1)

A person can get AIDS by wearing clothes used by an AIDS patient. (1-5)

Our traditional habit of eating more rice and less vegetables and lentils makes a proper meal. (1-5)

It is proper to have only two or three children, but they should be born in the first three or four years after marriage so that they can be brought up together. (1-5)

During diarrhea the child should not be allowed to eat and drink. Fasting is the best medicine for it. (1-5)
37 MR- 4 Every child is born with equal amount of intelligence. (1-5)
38 AF- 4 It is not proper for the wife to marry second time after the death of her husband. (1-5)
39 SSPH- 3 The wife of a man was very sick. He got her treated in a hospital. He also offered prayers and got her treated by witchcraft. She was cured. Some persons say that she was cured by the medical treatment in the hospital; prayers and witchcraft did not help her at all. (5-1)
40 SUMH- 3 Loss of semen causes insanity. (1-5)
41 CN- 4 Viral infections of the genetalia due to unhygienic menstrual and childbirth practices may lead to cancer in females. (5-1)
42 ADS- 4 A person can get AIDS by being bitten by a mosquito, which has already fed on a person with AIDS. (1-5)
43 ND- 5 The fresh raw milk of Cow is healthier than boiled milk. (1-5)
44 BF- 5 Breast-feeding helps avoid pregnancy. (5-1)
45 FP- 5 The sex of the child is determined entirely by the sperm of the father; the mother has no role in it. (5-1)
46 MR- 5 A child is likely to be mentally retarded if he does not talk by two years. (5-1)
47 AF- 5 God has made women such that they can never equal men. (1-5)
48 SSMH- 3 One becomes insane if one breaks a religious vow. (1-5)
49 SUPH- 3 Cancer is a contagious disease. (1-5)
50 ND- 6 All the worries in life are due to hunger and food, therefore, there should not be any restriction on eating. (1-5)
