ACKNOWLEDGEMENT

I am deeply indebted to Dr. C. K. Rudramuniyappa, Professor of Botany, Karnatak University, Dharwad, for his valuable guidance and constant encouragement throughout the course of this study.

I would like to thank Dr. G. Shivakumarswamy, Chairman, Department of Botany, Karnatak University, Dharwad and to the authorities of the Karnatak University, Dharwad for the facilities.

I am grateful to Dr. M. Manoharan, Research Associate, Indian Institute of Science, Bangalore for the help to carry out biochemical work and for the suggestions while preparing this thesis.

I would like to thank Dr. G. M. Ravi, Hindustan Lever Ltd., Hyderabad, for his valuable help during my studies.

I also thank Dr. M. G. Panchaksharappa, Professor of Botany (Rtd), Karnatak University, Dharwad for his encouragement during the course of this study.

I express thanks to my friends and colleagues in the department of Botany, Karnatak University, Dharwad.

It is my pleasure to acknowledge the help rendered by teaching and non-teaching members of the Department for their help during the course of this work.

I thank the authorities of library I.I.Sc., Bangalore and Tamil Nadu Agricultural University for the library facilities.
I express my deep sense of gratitude to my parents, wife
and relatives for their constant help and encouragement.
