ACKNOWLEDGEMENT

To study Prison Institution is to study how to manage and control certain class of people in community. The question arises, who are the people in the Jail house? Why are they there in the jail? Why are they there in the jail? What is to be done to them, and how to study them? These are the problems for which a penologist has to find possible solutions.

The present study attempts to direct and focus attention on the treatment of the individual inmates. Prison institution should be free from punitive acts. The criminal should be made to regain his self-awareness before his discharge day.

Nevertheless, to study is to know and to know is to understand. When we know and understand we simply pass it on to others at no cost. In similar manner, we may strive to know and understand the offender and his social backwardness and try to find a way to assist him without expecting anything in return from him.

How best and sincere at this juncture for me to share and express my invaluable gratitudes, to those persons or groups of persons that stood very close to me during the period of this study. Even when the burning academic zeal in me seems very impossible to accomplish. They are still dear and near to me all the time.

So, in order to accomplish one's wish and determination in life, especially such bloodless battle like education, it called for, parents, relatives, friends and other well wisher's word of encouragement, advice and endurance at any critical stage.
To climb the apex level of education is never an easy task to fulfill. There are many who yearn for it, but only a few could bring it to successful end, why?

Well, to proceed ahead, my first infinite thanks are to God Almighty. Through His mercy and endless love, I am able to see the end of this study. ZECHARIA : Chapter 4:6-7 Verses

My next sincere and most valued vote of thanks is to my research guide, in the person of Dr.B.H.Amati. There is no gainsaying, through his accumulated academic experience in the field of Juvenile Delinquency. I have profited or gained more than expected from him as far as research process is concerned. I am so grateful to him. Moreover I shall convey my untainted heart congratulations to the Chairman and Staff of the Department of Post-graduate Studies and Research in Sociology. For their bilateral acceptance of my studies in their department. The necessary help and co-operation extended to me during the long duration of the study. Thanks to all.

I will also remember to convey my gratefulness to the following personalities of the Karnataka University, Dharwad who in one way or the other were helpful to me during the period of this work or study.

Dr.V.C.Chavadi, former Director, University Staff College, Dr.A.E.Punit, currently the University Registrar, Dr.S.Rame Gowda, Former Vice-Chancellor, Dr.V.I.Raichoor, International Students Advisor, Dr.Karisiddappa, Dr.and Mrs Michael Bianca Gottlob, Smt. S.A.Raikar, Prof.S.C.Nagur.

As usual, I shall at this stage as well, utilize the opportunity to pass words of thanks to the following
institutions that were always available and ready to supply any needful and helpful literature and information on the study problem.

The entire staff of the University Library, Dr.K.G.Tyagi (Director) and the entire staff of the NASSDOC in Delhi, the entire staff of National Information Centre (SNDT) Mumbai, Prof. IPE, Former Principal of Lingaraj College Belgaum.
