ACKNOWLEDGEMENTS

I am beholdened to H.H. Guru Shridharanandaji who blessed me to undertake tasks that would broaden the horizon of my knowledge.

I am highly indebted to Dr. A. A. Pal whose guidance and encouragement enabled me to undertake this venture.

I am deeply indebted to Prof. P. S. Halyal for helping me constantly without whose effort I would not have completed this thesis.

I would be failing in my duty if I don't remember and express my deep sense of gratitude to Late Dr. K. R. Mallappa who introduced me to the field of research.

I thank Dr. Jayashree Budihalmath for all the co-operation, extended to me in the completion of this thesis.

I am grateful to Dr. M. V. Muddapur, Department of Statistics, Karnatak University, Dharwad for guiding me in computations and analysis of the data.

I sincerely thank Prof. R. K. Koppar for helping me in the necessary correction of the language.

My thanks are due to the members of the staff of the Karnatak University Library for their kind cooperation in collection of literature and other relevant information.
Words fail to express my thanks to Shri. S. G. Kammar for his efforts in typing this thesis.

I am highly obliged to all those men and women who constituted the sample of my research and it would not be an exaggeration if I say that without their participations and their cooperation it would not have been possible for me to complete this thesis.

Last but not the least I am highly grateful to my parents, my wife and the other members of the family whose love and affection, timely assistance and unfailing cooperation enabled me to complete this work. I am grateful to all my friends who have helped me directly and indirectly in the completion of this research work.

Dharwad
