ACKNOWLEDGEMENTS

I would like to express my deep gratitude to my research supervisor Dr C.R. Karisiddappa, Professor, Department of Library and Information Science, Karnataka University, Dharwad for his support, guidance and innovative suggestions during the course of this study. His encouragement throughout the period is a constant source of inspiration to me, especially during writing the thesis. While going through the draft of the work, he has meticulously identified gaps and helped me to put my ideas in order. In spite of his busy academic schedule and professional engagements, Prof. Karisiddappa spared his valuable time for me and it is due to his personal and professional involvement and constant encouragement that I am able to complete this work. I feel it a privilege to work under his guidance.

It is difficult to express in words my gratitude to Dr S.S. Murthy, former Director, Defence Scientific Information and Documentation Centre (DESIDOC), Delhi. He has significantly contributed in my understanding of certain emerging fields of electronic media by involving me in various projects and assignments – for which I have the privilege of contributing my mite. He was kind enough to relieve me from my official duties when warranted and gave me his ideas and suggestions from time to time. I sincerely thank him for providing necessary facilities and resources. I would also like to place on record my sincere thanks to Dr Mohinder Singh, Director, DESIDOC for extending all the necessary facilities and help, in completing this work.

I also gratefully acknowledge the help of the staff of Department of Library and Information Science, Karnataka University, Dharwad, especially Prof. S.L. Sangam, Dr B.D. Kumbar, and Prof. B.V. Rajasekhar, for their cooperation and help. I would like to record my sincere thanks to Prof. (Retd) N. Guruswamy Naidu, Sri Venkateswara University, Tirupati, for his helpful suggestions. I would also like to record my sincere thanks to all the respondents of the survey who were courteous enough to complete the questionnaire and mail. Without their active participation, it would have been difficult to complete the study.

A research work cannot be carried out in isolation. Many professional colleagues have helped in various stages of the study. I wish to express my sincere thanks to my
colleagues at DESIDOC, especially Smt Sonia Relan, Shri D.V. Ramana Rao, and Shri Zarafat Khan for their help in providing copies of articles, books and information sources from Internet. Thanks are also due to Shri Mukesh Kumar for his help in data entry and generating reports, and Shri Puran Chand for having brought documents from libraries other than DESIDOC. I take this opportunity to thank all the staff members of Defence Science Library at DESIDOC who have helped me in this work.

My sincere thanks are due to Shri B.G. Sunder Singh, Deputy Director, NISSAT, New Delhi for his help in suggesting the contents and providing valuable reports, especially for his critical comments on Chapter 6. I gratefully acknowledge the material sent by Dr T.S. Kumbar, Scientist, INFLIBNET Centre, Ahmedabad for his helpful suggestions. I sincerely thank Shri P. Rajakumar, Deputy Director, National Informatics Centre, New Delhi for his help and my friend, Shri P. Janakiram, Librarian, MRTPC, New Delhi for going through the draft of the various chapters and making useful suggestions. My grateful thanks are also due to Dr M. Ramalingeswara Murthy and Dr Chandrasekhara Rao, Institute for Studies in Industrial Development, New Delhi for their help, especially in coding the data and programming for SPSS, the Software Package for Social Sciences. While I have benefitted from the observations and comments of many senior colleagues, the responsibility for errors and omissions, if any, rests entirely with me.

It will be a failure on my duty if I fail to record my deep appreciation of my wife Smt K. Shailaja Reddy who was always bearing my indulgence with a smiling face. I acknowledge her secretarial assistance including painstaking work of typing, proof-reading and DTP work.

Dharwad
