Acknowledgement

Ph.D has been an experience of a voyage through varied terrain that has often been disheartening agonizing and mundane though there have been times of delight and satisfaction as well. All in all it has been a unique learning curve where many people have influenced and inspired me in various ways. First of all, I express my gratitude to Almighty for His immense blessings throughout my research work and giving me strength and health to finish this work successfully.

The person who influenced me the most, is Dr. S. A. Patil, Professor, Department of Chemistry, Karnataka University, Dharwad and words may not be sufficient to express my indebtedness and sincere gratitude towards him, as my research supervisor for his indispensable guidance, encouragements, moral support and enlightening me in godly graced to pursue my research in an thought provoking way. Apart from being an excellent supervisor, he is a simple person and hard working. I am touched by his cordial behaviour and sympathetic nature and consider myself fortune enough to have worked under his supervision. I thank Mrs. Leelavati S. Patil for her best wishes.

I thank sincerely to former Chairmans Prof. M. L. Budni, and Prof. M. I. aralaguppi and Present Chairman Prof. S. T. Nandibewoor, P.G. Department of Studies in Chemistry, Karnataka University, Dharwad for providing all sorts of needed facilities to carry out my research work. My sincere thanks are also due to all teaching faculties of P.G. Department of Studies in Chemistry, Karnataka University, Dharwad for their encouragement and timely help. My special thanks are due to Dr. Prema S. Badami, Department of Chemistry, Sri Sharanagasaweshwara College of Science, Gulbarga for her cooperation and support.
