Acknowledgements

It gives me a feeling of exhilaration and enrichment as five years of intense academic learning finally draws to a close. The preparation of this thesis was a labour of love made possible because of the wonderful support extended by many.

I would like to thank my guide Dr. Nadkarni for accepting me as his Ph.D student and guiding me throughout this period. The depth of his scholarship, meticulous attention to details and clarity in communication will always be a source of inspiration for me. My thesis would not have taken the shape it has but for his suggestions, advice and technical guidance.

I would like to gratefully acknowledge the contribution of Mr. G. Manjunath and Mr. S. Pujar of IGIDR library. They permitted me to use the library facilities during the entire period of my study. I would also like to thank the staff of Mumbai University library for their cooperation and support.

I am deeply grateful to the principal of my college Dr. Harshada Rathod. Her generosity in granting me leave for four months helped me to complete my work.

I would also like to acknowledge the assistance given by Ms. Kalavati Parmar and Ms. Payal Soni in typing my thesis.

I would like to thank my husband Pankaj for his moral and technical support, for having stood by me like a rock especially when the going seemed tough. I
thank my children, Hetal and Rahul, who very lovingly encouraged me in their own little ways. I want to record my gratitude to my parent for their blessings and support. Their visits to Mumbai were most welcome! They took over the responsibility of household chores thus providing me with time to do my work.

Finally, I would like to thank all my friends and relatives, colleagues for their good wishes. I would especially like to thank Mrs. Anjani Mehta, Dr. Jayshree Palit, Mrs. Rita Patil, Ms. Parinda Merchant and Mrs. Trupti Sabharanjak. In particular, I would like to thank Dr. Jayshree Palit for encouraging me to pursue my Ph.D and for being a great source of strength and wisdom.
