The majority sees the obstacles; the few see the objectives; history records the successes of the latter, while oblivion is the reward of the former.

Alfred A. Montapert
1. To study the role of genetic polymorphisms of drug metabolizing enzymes, CYP1A1, CYP2E1, GST and transporter protein, ABCB1 on the risk of UADT cancers

2. To investigate the gene-gene and gene-environment interactions of CYP1A1, CYP2E1, GST and ABCB1 associated with UADT cancers

3. To evaluate the association between genotypes and tumor outcome parameters

4. To assess the role of genotypes in remission and recurrence related to UADT cancers in the Tamilian population of south India
