As envisaged in the divine scriptures, one has to repay without fail the Mathruruna, Pitruruna and Acharyaruna. Accordingly, I am offering my deep hearted Pranams to my beloved parents to Smt. Huchamma and Sri. Boregowda for their everlasting benediction and moral support in accomplishing the research programme. I most humbly submit Pranams to my beloved teachers right from 1st standard to Ph.D., I also extend my sincere thanks to my sisters, brothers, friends, relatives, colleagues and all those who helped me directly and indirectly in the journey of completing the present thesis.

I convey profusely my conscious thanks to the support and encouragement tendered by Smt. Jayamma, mother-in-law, Sri. B.N. Shivaram, father-in-law and Sri. B.S. Sanjay, brother-in-law.

The ineffable Seva rendered by my nice, temperate and suave consort Smt. B.S. Latha gave me enough impetus, valour, inner strength, sustenance, power and wisdom to reach the fruition of this marathon research programme. Hence, I extend my profound and infinite gratitude to my better half for this.
Of all the precious things in the world, time is the most precious. Time is the important element in one's life. Health which is spoiled and lost can sometimes be recovered with the help of medicines. But the time which has gone by, is lost for good; there is no way for it ever to come back and be used again. No doubt, I have sanctified my time in pursuing this research work but the quality time which would have been spent for my beloved offsprings' baby Sanjana C. Shekar and baby Sahana C. Shekar was lost for the good, I apologize sincerely the deprivation caused to them from my absence around them during the research period.

Nothing is possible without the grace of the Almighty, He proposes, the researcher accomplishes. I completely surrender to the lotus feet of God for endowing me with abundant strength, courage, for completing the research programme successfully in a hassle free manner by guiding my inner voice.

(B. CHANDRASHEKARA)
