ACKNOWLEDGEMENTS

I am gratefully indebted to my Research Supervisor, Professor T. M. Aminabhavi, Department of Chemistry, Karnataka University, Dharwad for his enthusiasm, continuous support and positive criticisms of this research. Without his erudite help this work would not have seen the day of light.

The entire research reported in this thesis was generously supported by the Council of Scientific and Industrial Research [CSIR Grant No. 80(0025)/EMR-II/97], New Delhi, under the collaborative research program between Karnataka University and National Chemical Laboratory, Pune (with the cooperation of Dr. C. Bhaskar) by the kind approval of DGSIR. The encouragements received from Dr. R.A. Mashelkar (FRS), Director General, CSIR, towards the progress of this research are unforgettable. I am particularly grateful to CSIR for awarding the Senior Research Fellowship (SRF) throughout the course of this research between 1997 and 2001.

I am also grateful to Professor M.I. Aralaguppi, Professor R.H. Balundgi (Retired), Dr. M.Y. Kariduraganavar and Dr. (Mrs) L.S. Manjeshwar of our Department for their continuous, thoughtful and moral support during the tenure of this work.

My sincere thanks are due to Mrs. Brenda Oliver, Lamar University, Texas, USA, for her help in sending us the reprints of the papers and to Mr. Richard W. Thomas, Polymer Division, Southwest Texas State University, USA for his assistance in getting the thermal analysis data. I am also thankful to Lincoln and Syscare Pharmaceuticals for providing the free drug/excipient samples. I thank Professor S.R. Patwardhan of IIT, Mumbai for helping us to get the SEM pictures through RSIC. I also thank Professor V.B. Mahale, Chairman, Department of
Chemistry and my respected pharmacy teachers and friends for their encouragements.

I am fortunate to have helpful research colleagues, Dr. V.B. Patil, Dr. K. Banerjee, Dr. A.R. Kulkarni, Dr. H.G. Naik, Mr. U.S. Toti, Mr. S.G. Kumbar, Mr. M.D. Kurkuri and Miss J.N. Nayak who have continuously provided a friendly atmosphere in the laboratory. I am very much thankful to Miss H.K. Sujata for her help in typing and other official assistance.

I specially thank my friends Viswanath Rayadurg, Pramod Zalkikar, Diwakar Dhavale and others.

I am ever grateful to my Mother, Mrs. Parvati S. Soppimath, who created great inspiration in me and encouraged me to pursue education. I am also grateful to my uncles and aunts for their moral support throughout my career.

Kumaresh S. Soppimath
