Acknowledgements

I am ever grateful to my guide Prof CR Kansiddappa Chairman Department of Library and Information Science Karnataka University Dharwad for showing personal interest and providing constant inspiration in abundance to complete this work. But for his encouraging words and supervision, this work would not have been possible. He was closely watching my work and constantly reminding me to complete the work.

I gratefully acknowledge the unstinted help and support provided by Dr ARD Prasad and Dr (Mrs) Devika P Madalli DRTC Bangalore. Both of them evinced interest in my work in spite of their commitments. They encouraged me, helped me at every stage. I can never forget their help in solving my problems during my work. My special thanks are due to Mr Aditya Thirpati and Ms Dimple Patel Research Scholars DRTC Bangalore. I am also thankful to Prof IK Ravichandra Rao Head DRTC for his cooperation and hospitality.

I thank my wife Mrs Urmila Reddy Librarian OU Library and my sons (Dr E Srinivas Reddy and Mr E Snkanth Reddy) for their patience during my work. My wife was always behind me, encouraged me to finish the work in spite of several inconveniences she had to face.

Several of my close friends and professional colleagues readily came forward to extend their moral support during my work. I am thankful to all of them.
