ACKNOWLEDGEMENTS

I am extremely happy to express my sincere thanks and appreciation to Dr. H. Surya Prakash Rao, Professor in Chemistry, for inducting me into the realm of innovative and interesting field of Synthesis and Stereochemistry. I also express my deep sense of gratitude to him for his guidance, continuous moral support, constructive criticisms and constant encouragement throughout the course of this investigations.

I would like to thank Prof. J. Subramanian, Head of the Department of Chemistry and Prof. A.G. Ramachandiran Nair, Emeritus Professor, Department of Chemistry, for their valuable suggestions. I am also thankful to Dr. P. Sambasiva Rao, Dr. Bidhu Bhushan Das, Dr. R. Venkatesan, Dr. T.M. Rajendiran and Dr. G.N. Sastry, faculty members of the Chemistry Department for their help and friendly co-operation.

I am very much obliged to Prof. K. K. Balasubramanian and Dr. Sankararaman, of Chemistry Department, Indian Institute of Technology, Chennai for their help in recording the spectral data for my research work. I also express my sincere thanks to Dr. Sri Krishna, Department of Chemistry, Indian Institute of Science, Bangalore for his help, discussions and for recording spectra. I also express my gratitude to Prof. Goverdhan Mehta, Director, Indian Institute of Science, Bangalore for helping me in recording the spectra.

I gratefully acknowledge the unstinted co-operation, valuable suggestions and help rendered by Dr. K. Subba Reddy, Dr. B. Bharati, Mrs. Sujatha Logou, Mr. S. Rajamath, Mrs. Patcheammale, Mr. P. Muralidharan, Mr. P. Senthil Kumar, Mr. P. Jothi Lingam, Mr. P. Sakthi Kumar and other students who were my lab-mates during the course of my research work.

It is my great pleasure to thank the Head, RSIC, IIT, Chennai, Mr. Mohny and Miss. Baby, Technical Officers, RSIC, IIT, Chennai for helping me in recording NMR and Mass spectra.

I sincerely thank Dr. K. Chinnakali, Lecturer, Department of Chemical Engineering, Anna University, Chennai, Dr. E. Subramanian, Department of Bio-Physics and Crystallography, University of Madras, Chennai and Dr. Vyas, Dr. Reddy’s Research Foundation, Hyderabad, for providing the X-ray analysis of some of the compounds.
I wish to place on record my heartfelt thanks to Dr. Kalyana Sundaram, Assistant Director, Vector Control Research Centre, Pondicherry and Dr. Nisha George, Technical Officer, VCRC, Pondicherry for recording some of the NMR and IR spectra. I thank the authorities of sophisticated Instrumentation Facilities, Indian Institute of Science, Bangalore for recording NMR and Mass spectra.

I would like to thank Ms. Vidya, Ms. Anebousevi, Research Scholars, IISc, Bangalore, Mr. Muthukumaran, Mr. Sumodh George, Research Scholars, HCU, Hyderabad for their help.

I also sincerely thank the research scholars and office staff members of the Department of Chemistry for their help and co-operation. I also express my heartfelt thanks to my husband Dr. N. Thiyagarajan, my daughter, my brothers, my sisters, my brother-in-law and sister-in-law, my parents and my father-in-law and mother-in-law for their help and interest in completing my research work.

During the course of this research work, innumerable friends and colleagues have helped me in various aspects of my work. Lack of space restricts me in not mentioning each and every one of them individually, but that does not make their contributions any less. I am immensely grateful to all of them who have helped me.

The Council of Scientific and Industrial Research, New Delhi is gratefully acknowledged for financial support to my work.

K. JEYALAKSHMI
