Acknowledgements

My appreciation to my guide Dr. C. R. Karisiddappa, Professor, Department of Library and Information Science, Karnataka University, Dharwad will forever remain beyond words. I am ever grateful to him and without his unflinching support, guidance and encouragement, accomplishing this research work would have been impossible. He was providing all the support and constant inspiration to complete this work.

This thesis would have remained no more than an idea without the initial discussions that I had with Prof. B.H. Jajoo, Chairman, Computer Systems and Professor, IIM Ahmedabad and late Shri Jambhekar, Ex-Librarian, IIM Ahmedabad.

It has been a great privilege also to receive the comments from my colleagues in all the six IIMs. The librarians of all six IIMs have provided the necessary data required for conducting this study. I am thankful to all of them.

I like to acknowledge the support and encouragement provided by the Directors of IIM Indore and IMSc, Chennai. The infrastructure facilities at both these institutions provided a conducive environment to carry out and complete this research. I also like to thank my colleagues in the libraries of IIM Indore and IMSc, Chennai for their support and encouragement. Several of my friends and professional colleagues have always extended their support and help whenever needed to complete this work. I am thankful to them.

I gratefully acknowledge the help provided by the faculty members of the Department of Library and Information Science, Karnataka University for their help during my visits to the Department. Lastly, I would like to thank all my family members for their patience and constant encouragement during this work.

M. Paul Pandian
