CONTENTS

Chapter I. Introduction

1.1: Introduction.
1.2: Technological Change in Agriculture Some Theoretical Issues.
  1.2.1: Technological Change.
  1.2.2: Technological Change in Agriculture.
  1.2.3: Induced Technological Change.
  1.2.4: Type of Technological Change.
  1.2.5: Nature of Technological Change.
1.3: Review of Literature.
  1.3.1: Impact of Technology on growth of Agricultural Production and Productivity.
  1.3.2: Impact of New Technology on Employment.
  1.3.3: Impact of New Technology on Income Distribution.
1.4: Statement of the Problem.
1.5: Objectives of the Study.
1.6: Hypotheses.
1.7: Importance of the Present Study.
1.8: Limitation of the Present Study.

Chapter II. Materials and Methods

2.1: Secondary Data.
2.2: Primary Data.
  2.2.1: Selection of the District and Taluks.
  2.2.2: Selection of Sample Village and Farmers.
2.3: Analytical Techniques.
  2.3.1: Structural Break in the Production Relations.
  2.3.2: Decomposition Model.
  2.3.3: Factor Share Analysis.
  2.3.4: Employment Effects of Technical Change.

Chapter III. Technological Change and Agricultural Development in Karnataka.

3.1: Introduction.
3.2: The Agro-Climatic Features of Karnataka.
  3.2.1: Rainfall.
  3.2.2: Temperature.
  3.2.3: Soil.
  3.3.4: Irrigation.
3.4: Technological Progress and Crop Production in Karnataka.
3.5: Modern Agricultural Inputs.
3.5.1: High Yielding Verities (HYVs).
3.5.2: Chemical Fertilizers.
3.5.3: Consumption of Chemical Fertilizers.
3.5.4: Pesticide use.
3.5.5: Trends in pesticide use.
3.6: Compound Growth Rate of Area, Production and Yield in Different District in Karnataka During the Period of 1970 to 2002.
3.7: Conclusions.

4.1: The Agro-Climatic Features of Davangere District.
4.1.1: Area and Administrative Part.
4.1.2: Climate and Rainfall.
4.1.3: Land Holding and Irrigation.
4.1.4: Population and Literacy Rate of the District.
4.1.5: Rivers.
4.2: Area under Jowar Crop in Davangere District.
4.3: General Characteristics of Sample Farmers in the Study Region.
4.4: Structure of Land Holdings in the Study Area.
4.5: Livestock, Farm Machinery and Implements of Sample Farmers in the Study Area.
4.6: Cropping Pattern of Sample Farmers.
4.7: Importance of Jowar Crop.
4.8: Importance of Ragi Crop.
4.9: Average Area under Jowar and Ragi Crop of the Sample Farmers.
4.10: Costs and Returns Structure of Jowar and Ragi Crops of the Sample Farmers.
4.11: Costs and Returns of Gross Cropped Area under Jowar and Ragi Crop on Sample Farmers.
4.12: Conclusions.

CHAPTER V. Technological Change and Distribution of Gains

5.1: Introduction.
5.2: Gross Returns from Jowar and Ragi Crops on Sample Farms.
5.3: Sources of Output Growth.
5.3.1: Structural break in the production relations.
5.3.2: Decomposition analysis:
5.4: Deviation of the Actual Factor Shares from the Estimated Factor Shares.
   5.4.1: Effects of Modern Technology on Actual Factor Shares in Jowar Production.
   5.4.2: Effects of Modern Technology on Actual Absolute Factor Shares in Jowar Production.
   5.4.3: Effects of Modern Technology on Actual Factor Shares in Ragi Production.
   5.4.4: Effects of Modern Technology on Actual Absolute Factor Shares in Ragi Production.

5.5: Production Function Estimates in Jowar and Ragi Production.

5.6: Per Farm Geometric Mean Level of Output and Input in Jowar and Ragi Production.

5.7: Conclusions.

Chapter VI. Employment Generation Under Modern Crop Production Technology

6.1: Introduction.
6.2: Labour Employment on Sample Farms.
6.3: Inter-technology Employment Performance in Jowar and Ragi Production.
6.4 Conclusions.

CHAPTER VII. The Problems of Adopting the Modern Technology in Crop Production

7.1: Introduction.
7.2: Problems Faced in Selected Crops of the Sample Farmers.
7.3: Accessibility to credit.
7.4: Reasons for Taking HYVs by the Sample Farmers.
7.5: Conclusions.

CHAPTER VIII. Conclusion and Policy Implications

BIBLIOGRAPHY

APPENDICES
