CONTENTS

1. INTRODUCTION
   1.1 History of Migration
   1.2 Ethnographic Profile of Siddis
      1.2.1 Location
      1.2.2 Settlements
      1.2.3 Population
      1.2.4 Language
      1.2.5 Physical Features
      1.2.6 Family Structure
      1.2.7 Marriage
      1.2.8 Kinship
      1.2.9 Economic Organisation
      1.2.10 Political Organisation
      1.2.11 Religion

2. REVIEW OF LITERATURE

3. MATERIAL AND METHODS
   3.1 Introduction
   3.2 General Physical Examination
      3.2.1 Height and Weight
      3.2.2 Nutritional Status
      3.2.3 Blood Pressure
      3.2.4 Skin and Hair
   3.3 Oral Health Status
      3.3.1 Oral Hygiene Status
      3.3.2 Dental Caries
      3.3.3 Periodontal Status
   3.4 Systemic Examination
3.5 Blood Examination

3.5.1 Blood Group Examination
3.5.2 Haemoglobin Estimation
3.5.3 Sickling Phenomenon
3.5.4 Blood Smear Examination
    3.5.4.1 Morphology of Blood Cells
    3.5.4.2 Differential Leukocyte Count
3.5.5 Fetal Haemoglobin
3.5.6 Polyacrylamide Gel Electrophoresis

3.6 Stool Examination
3.7 Statistical Techniques

4. RESULTS AND DISCUSSION

4.1 Population
4.2 Nutritional Status
4.3 Blood Pressure
4.4 Hair and Skin Infections
4.5 Oral Health Status
4.6 Symptoms
4.7 Respiratory System Diseases
4.8 Miscellaneous lesions
4.9 Ear, Throat and Eye Diseases
4.10 Blood Group
4.11 Haemoglobin
4.12 Types of Anemia
4.13 Differential Leukocyte Count
4.14 Sickling, HbF and Electrophoresis (PAGE)
4.15 Stool Examination

5. CONCLUSIONS
