ACKNOWLEDGEMENTS

My introduction to Shashi Deshpande came through her short stories "The Legacy" and "An Antidote to Boredom" a few years ago. Then I read her novels, which are artistically better and philosophically more profound. And I found myself disagreeing with what reviewers and critics had to say. My reply is this thesis.

I must thank whole-heartedly Dr. Veena Shanteshwar, my guide and adviser, for her kindness and patience in directing my work.

The staff of the Karnatak University Library, the S.J.M.V.S's Women's College Library, Hubli and the Study Centre of Indian Literature in English and Translation Library, Madurai were always unfailing in their willingness and promptness in sending or procuring me books whenever I needed them. To them all, my thanks.

I can never forget the kindness of my college authorities without whose permission I could not have ventured to take up this task. My special thanks to them.
