ACKNOWLEDGEMENTS

I have great pleasure in expressing sincere gratitude to my guide Dr. (Mrs.) Kusuma Neelakantan, Professor in Department Studies in Marine Biology, Karnatak University P.G. Centre, Karwar for her supervision, guidance during the present study period.

I sincerely thank Dr. S.N. Harakantra, Scientist, Biological Oceanographic Division and Dr. Anil A.C. Scientist, MCMR.Division, National Institute of Oceanography, Goa for their valuable suggestions and encouragements during the study period.

I thank, Dr. Dhargalkar, Scientist, NIO Goa, for identifying some of the seaweeds. I also thank, Dr. P.V. Subbarao, Senior Scientist, Group Leader-Seaweed Cultivation Marine Algae and Marine Environment, Central Salt and Marine Chemicals Research Institute, Bhavnagar, Gujarat for identifying some of the Red algae encountered in the study sites. I thank Dr. Kaliaperuma, Scientist, CMFRI, Mandapam for providing me the key and literature for identification of marine algae (seaweeds).

I sincerely thank Dr. V.N. Nayak, Chairman, Department of Studies in Marine Biology, Karnatak University P.G. Centre, Karwar for his encouragement and constructive suggestions which helped me to complete my thesis work in target time.

I wish to thank with gratitude to Dr. E.T. Puttaiah, Professor and Chairman, Department of Environmental Science, Kuvempu University, Shankarghatta, Shimoga for his help in
identifying some of the species of Class Phaeophyceae and giving valuable suggestion in estimation of biomass and other parameters.

My gratitude to are due to Dr. Ulhas G. Naik, Research Associate, Fisherman's Guidance Bureau, Extension Centre, Department of Studies in Marine Biology, Karnataka University PG Centre, Karwar for introducing me to the subject, guiding my research, coordinating my approach. He has encouraged me throughout the study tenure through his valuable suggestion, unstinted help, advice and encouragements.

My sincere thanks to Dr. U.G. Bhat, Reader, in Department of Studies in Marine Biology, Karnataka University P.G. Centre, Karwar for helping me with his valuable suggestions and encouragements during the study period.

My thanks are also due to the Officer of the Department of Collegiate Education of Karnataka for permitting me to register and work for my Doctoral study.

My special thanks are due to Smt. Pushpa M. Patil, Principal, Government Arts and Science College, Karwar for her constant help and to my Departmental colleagues Dr. Jayakar Bhandari, Dr. Fasihuddin and Dr. B. Vasantkumar for their ever helping nature made me to complete my research work in a stipulated time. I also thank to our College Librarian, Sri. Kumbar for providing me the relevant reference books and journals.
My sincere thanks to Dr. D.C. Shetty, Research Associate, Department of Studies in Marine Biology, Karnataka University PG Centre, Karwar for his everwilling assistance during the field study. I also thank Sri Chandrakant T. Harikantra for his help during the collection of seaweeds and I also thank Sri Panduranga Harikantra for taking photographs of study sites. At this context, I very much thank Sri Santan Fernandes, Remy Digital Photo Studio, Karwar for taking photographs of Seaweeds during study period.

I sincerely thank my beloved Professor, T.C. Shivashankarmurthy, Department of Studies in Botany, PG Centre, Manasgangotri, Mysore for his encouragement to pursue my higher studies.

My sincere thanks to Dr. V.S. Kakati, Scientist, Central Marine Fisheries Research Institute, Karwar Regional Centre for his suggestions and encouragements during the study period.

I thank Dr. J.L. Rathod, Lecturer, Department of Studies in Marine Biology, Karnataka University PG Centre, Karwar for his help during the study period.

It gives me an immense pleasure in recalling my teachers, Sri P. Rangaramaiah, Sri P. Sreenivas, Sri Jayaram and Sri R. Anantamurthy, Government High School, Talavady, whose noble guidance and evergreen benedictions showered on me through out my academic period and which made me to reach my destined goal today.
My beloved father late Sri V. Venkatranga Naik and loving mother late Smt. Lakshmamma, my brothers Sri Hanumanta Naik, Sri Venkatachala Naik and sister Kumari Chikkarangamma whose best wishes and support made me to continue my higher studies and to reach the goal.

My heartfelt thanks are due to my wife Smt. Rathna and my daughters Savita, Sheela and Uma for their constant encouragements throughout the study period which made me to complete this research work successfully.

At this juncture, I sincerely thank Sri Gopal Harikantra for his neat and meticulous work in scanning of the photographs of Seaweeds and arranging them in a systematic manner in the Thesis.

I also thank the authorities of Karnataka University, Dharwad for allowing me to register and submit my Doctoral Thesis.

Karwar
