Acknowledgement

I express with a deep sense of gratitude and with great pleasure, my heartfelt thanks and indebtedness to my research supervisor, Dr. (Smt.) Shashikala R. Inamdar, Reader in Biochemistry, Karnataka University, Dharwad, for the encouragement, sustained interest and affection that I received throughout my tenure as a research student. Indeed, I consider myself to be extremely fortunate to have come under the shelter of her scholastic arena, intellectual magnetism and awe-inspiring personality. Her inexhaustible knowledge and unfailing support has helped me in the preparation of this thesis from its infancy to final stage.

I have absolutely no words to express my deep sense of gratitude to Dr. B. M. Swamy, Reader, Dept. of Biochemistry, Karnataka University, Dharwad, my teacher. I take this opportunity to pay my respectful regards to him for his kindness, constructive criticism and whole time co-operation. I was fortunate to work in his group and his everlasting interest, encouragement has enabled me to complete this task. I remain indebted to him.

I am grateful to Dr. Demetres D. Leonidas, Institute of Biological Research and Biotechnology, The National Hellenic Research Foundation, Athens, Greece for the X-ray crystallographic studies of Sclerotium rolfsii lectin.

I thank Dr. M.V.Kulkarni, Prof. Dept of Chemistry, KUD., Dr.Shivkumar Swamy, Prof. Dept. of Botany, KUD., and Dr. I.M.Khazi, Reader, Dept of Chemistry, KUD., for their constant support and valuable discussions. I thank Dr. M.Y. Karidurgannavar, Senior lecturer for providing the lyophilizer facility, Dept. of Chemistry, KUD.

I am grateful to Dr. Shrikanth Kulkarni, Professor of plant pathology, University of Agricultural Sciences, Dharwad, for providing plant pathogenic fungus Sclerotium rolfsii, and for useful discussions.

I record my sincere thanks to Dr. G. S. Kumar, Professor and HOD of Oral Pathology S. D. M. Dental College, Dharwad and Dr. Vandana Raghunath, Prof. and H.O.D., College of Dental Sciences, Davangere for their help in carrying out histochemical studies and valuable discussions. Thanks are also extended towards Dr. Umesh. Hallikeri., Pathologist, The Karnataka Cancer Therapy and Research Institute., Navanagar, Hubli., for sparing his valuable time for discussion and interpretation of histochemical studies. I thank Dr. Sujata Naik., Karnataka Institute of Medical Sciences, Hubli and Dr. Geethanjali Mukherjee, KIDWAI, Bangalore for their help in getting tissues for the studies.
I thank the Chairman, Dr. H.Z. Ninnekar and former Chairmen, Dr. S. B. Hinchigeri, Dr. (Mrs) R. S. Bennur, and my teachers, Dr. B. G. Pujar, Dr. J. R. Gadag and Dr. (Mrs.) H. S. Aparna, Department of Biochemistry, for their concern and encouragement during my research tenure.

I thank Shri S. R. Deshpande and all other staff of USIC, K.U.D., for their help in using the facilities. Thanks are also extended to non-teaching staff, Dept. of Biochemistry, K.U.D., for their timely help.

I express my sincere thanks to my senior researchers Dr. Ramachandra S. Naik and Dr. G. V. Hegde. I thank Ravindra Ghudihal and R. G. Bhat, IISc, Bangalore, who have helped me during the critical stage of my work.

I am grateful to my research colleagues, Mr. P. M. Sundaram, Mrs. C. Shubhada, Mr. G. J. Satish and Mr. Vishwanath B. Chachadi, for their constant help during my research career.

It is indeed a great pleasure to recall the memory of my friends who made my stay all these days a pleasant experience. I would like to express my heartfelt thanks to my friends, Mr. Sunil S. Morey, Mrs. Preeti N. Tallur, Veena, Santhosh, Neelgund, Aejaz, Uday, Kiran, Ravi, Andan, Manju, Rajesh, Mahesh, Prashant, Jyoti, Ashok, Ramnarayan, Manoj, Annapoorna, Geetha, Srinivasulu and Prakash for their affection and constant encouragement.

Also I thank my friends, Ashwini, Shivanand, Jagadeesh, Gouri, Namrata, Vindya, Prathiba, and Nutan for their moral support and helping hands that always soothed me. I thank Sidhu and Nagraj for their contribution in preparation of the thesis.

On the threshold of my success, only thing that remains for me is to be grateful to my parents whose blessings and sacrifices made this endeavour a reality for me. I am very much grateful to my mother Sathyabhama and sister Jayasudha as they have always been a source of inspiration throughout my academic career.

Also I thank Dr. Y. P. Vyasmudri, Dr. S. S. Hanumanthgad and Dr. B. V. Math, and all other staff of Dept. of Chemistry, J.S.S. college, Vidyagiri, Dharwad for their kind cooperation during my teaching tenure at the college.

I gratefully acknowledge the financial assistance of Karnataka University, Dharwad for awarding the University fellowship.

Last but not least, I would like to acknowledge almighty who has been inspiring me in each and every step of my life and finally, I remain indebted to all those who inspired me with love and affection.

Dharwad Anuradha G. Bhat
