ACKNOWLEDGEMENTS

Pursuing a research program is a task of different kind. Unlike pursuing a degree course, where one does not need to interact with others, the completion of a Ph. D program calls for an interaction of the researcher with people belonging to different walks of life. So by the time a person completes his/her Ph. D program, he/she stands indebted to many people.

I want to acknowledge the persons, with whom I had interaction during the course of my Ph. D program, by the way of thanking them. I express a deep sense of gratitude and appreciation to my guide prof. Surya Prakash Rao who had exposed me to the field of research in the synthetic organic chemistry and stereo chemistry. With his guidance and inspiration only, completion of this research work, became a reality.

I am indebted to prof. J. Subramanian, HOD Chemistry, Pondicherry University, for his kindness, help at the time of crisis and valuable suggestions. I thank prof. A. G. Ramachanderan Nair, former HOD of Chemistry for his timely help and suggestions. I am thankful to all the members of the chemistry faculty: Prof. P. Sambasiva Rao, Dr. Bidhu Busan Das, Dr. T. M. Rajendran, Dr. R. Venkadesan, Dr. Bala Manimaran, and Dr. G. Vasugi for their help and encouragement. I thank Dr. G. Narahari Shatri, Ex-faculty of this department, for having induced in me, the interest for computational chemistry. I thank prof. P.Venu Vanalingam, Dept. Chemistry, Bharathidasan University, Thiruchirappalli, for his valuable suggestions and guidance in the field of computational chemistry.

I am thankful to my Doctoral committee members Dr. N. Parthasarathy, Reader, School of Ecology, Pondicherry University and Dr. N. Sakthivel, Department of Biotechnology, for their guidance and suggestions. I thank Mrs. Subramanian and Mrs. Rao for their encouragement and hospitality. I thank my colleague Mr. S.S.Srinivasan, Ph. D scholar of this department, for his company and help. I appreciate and thank the staff of the office, Department of Chemistry, Pondicherry University, for their warm reception, cooperation and help.

I acknowledge and appreciate the help rendered by my co-researchers, during my Ph. D program: Dr. Jayalakshmi, Dr. P. Muralitharan, Dr. Sujatha, Dr. Sethumathavan, Mr. S.P. Senthil Kumar, Mr. S. Jothilingam, Mr.R. kannapan, Mr. Sakthikumar, , Ms. S.Tamil selvy, Dr.Anantha Lakshmi, Dr. K. Velavan, Ms. Vijaya, Ms. Deepalatha, Mr Deva priya Kumar, Mr. Denathayalan and Ms Surya Kala. I appreciate my ex-students Ms. Mahalakshmi, Ms. Suganthi, Mrs. Deepa and Ms. Vasantham who are pursuing research in this department, for their help.

I am thankful to all the persons who helped me, in obtaining analytical data for the compounds synthesized by me: Prof. Sri Krishna, IISc, Bangalore; Dr. M. S. Moni, RSIC,
Chennai; Dr. P. Venugopalan, Reader, Dept. of Chemistry, Chandigar University, Chandigar; Dr. H. K. Fun, University of Sama, Malaysia; Dr. Chinnakall, Reader, Dept. of Physics, and Dr. Raj Kumar Dept. of Chemistry, Madras University, Chennai; Dr. S. S. S. Raj, Protein Crystallography and structural biology Laboratory, Japan; Mr. Babu and Ms. Anebouselvy IISc, Bangalore and Mr. Semparthi, IIT, Kanpur.

I am grateful to my ex-principal Prof. C.V. Mohan and principal Dr. S. Kumuda of Bharathidasan Govt. College for Women, Pondicherry for their encouragement and help. I am thankful to my colleagues Mrs. Indira, Mr. V. Ravichanderane, Mr. J. Sugumar, Dr. S. Mohandass, Mrs. V. Tamarai Selvi, Mrs. V. Poushanam, Dr. Veera rahavan, Mrs. N. Couppamalle and Mr. K. Bala murugan for their encouragement and cooperation. I am thankful to the staff of the Department of computer science, BGCW, Pondicherry, for their help and cooperation. I thank my family friend, Dr. Subramanian for his kind attention to my family members, during my final period of research.

Finally, I thank my family members R. Vasuki, R. Anchana, R. Muthalya Ram and my sister S. Paruvatham for their endurance, cooperation and help.

(S. RAJAMATHE)
